

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

INTRODUCTION.

The Year-Book for 1902 consists of two parts, 1st, the 'Record,' and 2nd, the 'Abstract.'

Every effort has been made to secure accuracy and to introduce new features as the development of the country supplies additional material.

The estimate of the population in the middle of each year is based upon the assumption that the rate of increase which prevailed in the intercensal period immediately preceding has since been maintained. Since the census of 1901 afforded the needed data to make corrections, the estimates of the decade 1891-1901 have been revised, just as the estimates for the several years of the decennial period 1881-1891 were revised after the taking of the Census of 1891. The per capita calculations have been revised in accordance with the usual custom.

The Chapter on Minerals has been inserted after Post Office Statistics, instead of in its proper place, delay in receiving the statistics making the change unavoidable.

Owing to the early publication of the Blue Books of the several Departments of the Federal Government and the kindly co-operation of the Provincial Governments, the Year-Book for 1902 is published about the same date as last year's issue, which was two months in advance of previous issues.

I have pleasure in recording the good work done by Messrs. J. Wilkins and J. Skead in connection with the compilation.

RECORD.

The earliest official records show that John and Sebastian Cabot, sailing under commission from King Henry VII. of England, landed in 1497 on that part of the present Dominion of Canada known as Cape Breton in Nova Scotia.

Gaspar Cortereal discovered and named the Labrador coast in 1500.

Jacques Cartier, of St. Malo, France, acting under the authority and patronage of Francis I. of France, discovered, in 1534, those portions of the Dominion of Canada now called New Brunswick, Prince Edward Island, and Quebec, and on his return to France presented the King with the first official record there is of the existence of these regions.

Captain Cook in 1778 gave the first authentic record of the discovery of Vancouver Island and the Pacific Ocean coast of the present Dominion.

Frobisher, Hudson, Parry, Franklin, Richardson, Back, Mackenzie, Simpson, Vancouver and others, between 1576 and 1847 explored and named the north and north-west coasts of the Dominion.

Colonization was practically begun in 1605-8. In 1605 Baron de Pouincourt established Port Royal (now Annapolis Royal, in Nova Scotia), the first actual settlement by Europeans. In 1608 Champlain founded Quebec.

The name Canada first appears in the 'Bref récit de la navigation faite en 1536-7, par Capt. Jacques Cartier.'

By discovery, by occupation and by the Treaties of Utrecht (1713), of Paris (1763), and of Versailles (1783), all the country comprised in the Dominion of Canada became part of the British Empire.

The Dominion of Canada is about 3,500 miles from east to west and 400 miles from north to south.

It comprises the whole of the northern half of North America with the exceptions, on the west, of Alaska, on the north, of Greenland, and on the east, of the Labrador coast line, which latter is under the jurisdiction of Newfoundland, this colony not yet having entered the Canadian confederation.

Canada is bounded on the north by the Beaufort Sea and the Arctic Ocean; on the west by Alaska and the Pacific Ocean; on the east by Davis Straits, Labrador Coast and the Gulf of St. Lawrence; and on the south by the Atlantic Ocean and the United States of America. The latter boundary (starting from the Atlantic seaboard) commences at the mouth of the St. Croix River, which empties into the Bay of Fundy, then follows this river and Lake Chiputnecook and passes due north until it strikes the St. John River; thence by that river and one of its western branches it reaches the watershed between the St. Lawrence River and the Atlantic, which it follows by a tortuous south-westerly course to the 5th parallel of north latitude in longitude 71° 31' west; then by that parallel it passes westward to the St. Lawrence River and along mid-channel of that river and of Lakes Ontario, Erie, Huron and the main

portion of Lake Superior to the mouth of Pigeon River; thence by it and Rainy River it gains the north-west angle of Lake of the Woods; thence it follows the 49th parallel to the Gulf of Georgia and thence passes by the Haro Straits and the Straits of Fuca to the Pacific Ocean. The length of this frontier line is 3,000 geographical miles, 1,400 miles being a water line by rivers, lakes and seas, and 1,600 miles being a land boundary.

In addition to this boundary line between Canada and the United States there is a boundary line between Canada and Alaska (belonging to the United States by purchase from Russia in 1867). This line is in part a subject of treaty between Great Britain and the United States, ratified by the Senate of the latter country in February, 1903.

The following table gives the names and the areas of the several provinces and territories of the Dominion, together with the dates of their creation or admission into the confederation.

1784. Population of Canada, 113,012. (United Empire Loyalists in Upper Canada not included.) Fredericton, N.B., founded by U. E. loyalists. Cape Breton separated from Nova Scotia politically.
August 16. New Brunswick made a separate province; population, 11,457. Reintroduction of the right of *habeas corpus*.
British population in Nova Scotia, 32,000 (about 11,000 Acadians not included).
1784. About this time began the migration into Canada and Nova Scotia of the United Empire Loyalists, as they were called—that is, of those settlers in the American States who had remained faithful to the British cause. This migration lasted for several years, and though it is not possible to arrive at any exact figure, it is probable that the number altogether was not less than 25,000. The loyalists were well treated by the British Government, and large grants of lands were made to them in various parts of the country. The banks of the St. Lawrence and the shores of Lake Ontario, in particular, were settled by about 10,000 persons, on lands allotted to them by the Government.
1785. May 18. Date of charter of St. John, N.B., as Parrytown, the oldest incorporated town in Canada. Sydney, C.B., founded by Lieutenant-Governor Desbarres. English law declared to be in force in Cape Breton Island.

1812. 100 Scotch settlers went to Red River by way of Hudson Bay. War of 1812-15 between Great Britain and the United States. British Orders in Council were passed declaring a strict blockade of the European Coast from Brest to the Elbe; other Orders in Council connected with the blockade were subsequently passed. These affected seriously the trade of the United States, and with other causes produced a war which was declared by the United States on June 18, 1812, one day after the obnoxious Orders in Council had been repealed. If there had been cable communication in all probability there would have been no war of 1812-14.
- July 12. General Hull's force of 2,500 men crossed the Detroit River near Sandwich into Canadian territory.
- July 17. Fort Michillimackinac surrendered to Capt. Roberts commanding a British force of 193 men.

2. August 5. Brownstown Village. British troops and Indians under Tecumseh ambushed the United States forces; killed 20 men and wounded 9, driving the enemy back, August 5. United States General Hull (Aug. 7th) retreated to Detroit.

- October 5. Harrison with 3,500 men defeated Proctor with 407 soldiers and 80 Indians at Moravian town. The celebrated Indian Chief, Tecumseh, was killed in this engagement. Harrison burned the town on the 6th.
- October 26. The French Canadian militia, led by Lt.-Col. de Salaberry and numbering 350, overwhelmingly defeated 3,500 United States troops under General Hampton at Chateaugay.
- Believing themselves surrounded by forces far superior in numbers, the invaders became paralysed with fear and fled in disorder from an enemy whom they could not see, and who might close upon them at any moment. In this way Canadian pluck and strategy won a famous victory which saved the province of Lower Canada at a most critical moment of the war."—SIR JOHN BOUBINOT.
- November 11. Battle of Chrysler's Farm. The invading United States force consisted of 2,000 regulars with six field pieces. British force under Col. Morrison numbered 680 regulars, 120 Canadian militia and 30 Indians, with three field pieces. British loss, 22 killed, 150 wounded and 15 missing. United States loss, 102 killed and 237 wounded. The United States General Covington was among the slain. After being defeated the United States army hastened back to their own country.
- December 11. United States General McClure abandoned Fort George, and after burning 149 houses in Newark and Queenston and compelling 400 women and children to seek shelter in the woods, crossed over to Fort Niagara on the United States side.
- December 18. Col. Murray (British) with 550 men crossed Niagara River and captured Fort Niagara, killed 65 men and made 344 prisoners, only twenty of the garrison escaping. The British loss was six killed and five wounded.
- December 19. General Riall (British) with 500 men crossed the river to Lewiston accompanied by 500 Indians. A skirmish took place between the Indians and a United States force, in which the latter lost eight men killed. The United States troops evacuated Lewiston, which was at once destroyed, as also were the villages of Youngstown and Manchester and Fort Schlosser, General Riall returning to Canada.
- December 30. General Riall (British) again made a raid into United States territory, routed the United States troops opposed to him and captured and burned Buffalo. "On New Year's Day, 1814, the settlers along the whole length of the Niagara River—those of them who survived—were shivering besides the smouldering embers of their homes," and the burning of Newark was revenged.
1814. March 30. United States General Wilkinson led 5,000 men across the boundary against 350 British posted in La Colle Mill. After a fight of four hours, the United States troops retreated to Plattsburg.
- May 6. Sir James Yeo and General Drummond with 1,080 rank and file left Kingston on May 4. The fleet arrived off Oswego on the 5th. On the 6th, 770 men embarked on boats, effected a landing under a fierce fire from the batteries and from the musketry discharge of 500 regulars and militia, and in a short time captured the town, losing 19 killed and 42 wounded. The United States troops lost 6 killed and 38 wounded and 25 missing. 60 prisoners were taken by the British, who destroyed all public property.
- May 15. Col. Campbell of the United States Infantry with 500 men crossed from Erie, Pa., and burned Port Dover.
- May 30. Sir James Yeo sent two gun boats up Sandy Creek, 16 miles to the west of Sackett's Harbour to capture stores. They were attacked by a United States force of 150 regulars, 200 Indians and a strong body of militia. After a loss of 8 killed and 20 wounded the remaining 120 British surrendered.
- July 3. United States General Brown having with him 6,000 rank and file marched against Fort Erie which surrendered, being held by but 170 British.
- July 5. General Brown, attacked by British General Riall with 1,800 men, engaged him in battle—the Battle of Chippewa. The United States force lost 308 men and the British 511 killed and wounded. General Riall retreated taking up a new position at Lundy's Lane—the enemy in the meantime plundering and destroying and burning the village of St. Davids—acts which enraged the people who "sniped" them at every opportunity, killing numbers.

14. July 25. Col. Tucker (British) with 1,500 men crossed over and took Lewiston, destroying the public stores.
- General Drummond had hastened from Kingston on hearing of the Battle of Chippewa and arrived at Fort George on the 24th. With 800 men he hurried forward to aid Riall and reached Riall's camp just as the United States forces were within 600 yards of it. Then began the battle of Lundy's Lane "the bloodiest conflict of the whole war." It lasted seven hours and the United States forces then withdrew having lost 1,200 of 4,900 engaged. The British force engaged was 1,640 during three hours, at the end of which time a reinforcement of 1,200 men arrived. Of the whole British force 84 were killed and 657 wounded. The United States troops withdrew to Fort Erie. "Nothing could have been more terrible nor yet more solemn than this midnight contest. The desperate charges of the enemy were succeeded by a death-like silence, interrupted only by the groans of the dying and the dull sound of the Falls of Niagara."
- August 4. Commander Sinclair (American) attempted to capture Mackinaw, but failed.
- August 12. Capt. Dobbs (British) captured two United States schooners at Fort Erie.
- August 15. General Drummond assaulted Fort Erie, but failed to carry it, the accidental explosion of an ammunition chest nearly destroying the storming party.

- September 3 and 6. Two United States vessels captured off Nottawasaga.
- September 11. British Capt. Downie in naval engagement before Plattsburg on Lake Champlain after a desperate battle was defeated. The British had 8 vessels, 38 broadside guns and an aggregate crew of 337, against an United States fleet of 14 vessels, 52 broadside guns and 950 aggregate crew.
- September 17. United States troops made an unsuccessful sortie from Fort Erie.
- November 5. United States forces evacuated Fort Erie, destroyed, and went across to United States territory.
- December 24. War terminated by the Treaty of Ghent.
- "The result of the three years' fighting" says Denison, "was that twelve distinct invasions by superior forces of the enemy were defeated and the invaders driven out of the country, making it a victorious war for us."
- "The war did much to solidify the various racial elements" says Bourinot, "of British North America during its formative stage. Frenchmen, Englishmen, Scotsmen from the Lowlands and Highlands, Irishmen and Americans united to support the British connection. The character of the people, especially in Upper Canada, was strengthened from a national point of view by the severe strain to which it was subjected. Men and women alike were elevated above the conditions of a mere colonial life and the struggle for purely material necessities and became animated by that spirit of self-sacrifice and patriotic endeavour, which tends to make a people truly great."
- "Lundy's Lane was the most hotly contested of all the engagements which took place in the war of 1812-15. The invaders of Canada forming the centre division of the American Army under the command of General Brown fought with a courage which was truly heroic. This battle was not a long-range engagement, but a hand to hand, bayonet to bayonet, muzzle to muzzle conflict."
- "Of all the battles fought in America, the action at Lundy's Lane was unquestionably the best sustained and by far the most sanguinary. The rapid charges and real contests with the bayonet were of themselves sufficient to render this engagement conspicuous. Traits of real bravery and heroic devotion were that night displayed by those engaged, which would not suffer in comparison with those exhibited at the storming of St. Sebastian or the conflict of Quatre Bras."
- "General Drummond was himself wounded in the neck by a bullet. He places the killed, wounded and missing at 836. The United States General reported killed, wounded and missing, 858."
- Population of Upper Canada 95,000 and of Lower Canada, 335,000.

As the war in South Africa is a prominent event in the history of Canada, the following summary of events has been prepared:—

- May 18, 1899. Secretary of State for the Colonies, Mr. Joseph Chamberlain, announced in House of Commons that a meeting between Sir Alfred Milner, High Commissioner for South Africa, and President Kruger, had been arranged.
- May 30. President Kruger and Sir Alfred Milner arrived at Bloemfontein to discuss the grievances of the Uitlanders.
- June 6. Conference concluded; (8) announced that the Conference has proved a failure.
- June 14. Transvaal Raad accepted the franchise proposals made by Kruger as his final concession to Great Britain, but suspended their operations till they were referred to popular vote.
- July 11. Government of Queensland offered Great Britain a force of 250 mounted infantry, with a machine gun, for service in South Africa, in case of hostilities between Great Britain and the Transvaal.
- July 18. The Transvaal Volksraad adopted Bill providing for a seven years' retroactive franchise.
- July 26. New franchise law promulgated in the Transvaal.
- July 31. Commons of Canada passed, unanimously, a resolution expressing sympathy with the Imperial authorities in their efforts to obtain for the subjects of Her Majesty who have taken up their abode in the Transvaal such measure of justice and political recognition as may be found necessary to secure them in full possession of equal rights and privileges.
- August 1. Senate of Canada passed unanimous resolutions similar to those passed by the Commons relative to the treatment of British subjects in the Transvaal.
- August 19. Transvaal Government made fresh proposals to Great Britain offering a five years' franchise, a share for Uitlanders in the election of President, and increased representation for the gold fields to the extent of eight seats. The conditions attached were (1) That Great Britain abandon her claim to suzerainty, (2) That she pledge herself never again to intervene in Transvaal affairs, and (3) That she concede arbitration.
- August 28. British Government replied declining to consider the conditions proposed, but renewed proposal for another conference.
- September 2. Transvaal Government acceded to proposal for another conference on basis of abrogation of British suzerainty and recognition of the Transvaal as a Sovereign International State.
- September 12. Secretary of State for the Colonies sent despatch to Transvaal Government proposing five years' franchise, increased representation and use of English language in Volksraad, the suzerainty question to be left *in statu quo*.
- September 17. Transvaal Government replied, withdrawing all former offers and proposing Joint Commission of Inquiry to consider the whole case from the beginning.
- September 22. Hon. Joseph Chamberlain notified President Kruger that the Imperial Government intend to consider the situation anew and to formulate new proposals.
- September 29. The Volksraad of the Orange Free State resolved to stand by the Transvaal.
- October 3. Mr. Chamberlain sent cablegram to Governor General of Canada expressing the high appreciation of the Imperial authorities of the signal exhibition of patriotic spirit of the people of Canada shown by offers to serve in South Africa, and accepting the same; asked the Government to give to all who have offered to raise volunteers the Imperial Government's decision.

- October 5. Hon. Joseph Chamberlain stated to President Kruger that on account of the refusal of the Transvaal to consider former proposals the Imperial Government will formulate new proposals.
- October 10. Transvaal Government sent an ultimatum to the British Government complaining of the latter's 'unlawful intervention in the internal affairs of this republic in contravention of the London Convention of 1884,' and demanded that (1) all points of difference be settled by arbitration or other amicable means; (2) All troops on the Transvaal border to be instantly withdrawn; (3) All reinforcements of troops which have arrived in South Africa since June 1, 1899, be removed, the Transvaal agreeing to make no attack upon British possessions in Africa pending further negotiations and agreeing also to withdraw its forces from the borders; (4) British troops now on the high seas not to be landed in any part of South Africa. The Transvaal Government stated further that an answer must be made by the British Government on or before October 11, at 5 p.m., otherwise the Transvaal Government would regard the action as a formal declaration of war. British Government replied to the ultimatum that the demands of the Transvaal Government 'are such as Her Majesty's Government deem it impossible to discuss.'
- October 11. Transvaal Government issued formal declaration of war.
- October 12. Boers invaded British territory in three columns through Botha's Pass, Laing's Nek and from Wakkerstroom. They also intercepted an armoured train between Vryberg and Mafeking and killed fifteen British.

The principal physical features of Canada are the Rocky Mountains and the Laurentian range, the plains of the North-west Territories, the great lakes and Hudson Bay and the Bay of Fundy, and the Mackenzie River and St. Lawrence River basins.

The great Laurentian lakes, five in number, form, with their connecting rivers, a complete system of navigation from the head of Lake Superior to the Atlantic Ocean, a distance of 2,384 miles. They cover an area of about 100,000 square miles.

Other great lakes are Great Bear, 11,200 square miles; Great Slave, 10,100 square miles; Winnipeg, 9,400 square miles; and Athabaska, 4,400 square miles.

The principal mountains are the Rocky Mountains in the west, extending from the Arctic Ocean to the United States; they contain the highest points in the Dominion, among the chief being Mount Hooker, 16,760 feet; Mount Brown, 16,000 feet; and Mount Murchison, 15,700 feet.

The principal rivers are the St. Lawrence (with its tributaries, the Ottawa, the St. Maurice, the Richelieu and the Saguenay), the St. John, the Restigouche and the Miramichi rivers, flowing into the Atlantic Ocean; the Mackenzie, Coppermine and Great Fish rivers emptying into the Arctic Ocean; the Saskatchewan and Red, the Nelson, Churchill and Albany rivers flowing into the Hudson Bay; the Fraser and Columbia emptying into the Pacific Ocean.

Hudson Bay is a large inland sea, having an area of 350,000 square miles. Including its two arms it has an extreme length north and south of 1,000 miles, and a width across the bay proper of about 600 miles.

The Bay of Fundy, 170 miles long, and from 30 to 50 miles wide, nearly separates Nova Scotia from New Brunswick, the connecting Isthmus of Chignecto being about 15 miles wide.

The principal islands in Canada are Baffin Land, Prince Albert Land (which are the principal islands in the district of Franklin), Vancouver and Queen Charlotte Islands in British Columbia; Prince Edward Island, Cape Breton Island and Anticosti in the Gulf of St. Lawrence.

The climate varies greatly. The average mean temperature is—in Prince Edward Island, summer, 61·9 degrees F., and 19·5 in winter; New Brunswick, summer, 60 degrees, and winter 19·0; Nova Scotia, summer, 65·2 and winter 25·0; Quebec, 58·3 summer, and 15· winter; Ontario, 63·4 summer, and 19·8 winter; Manitoba, 60·1 summer, and 0·8 winter; British Columbia, summer 61·, and winter 32·4.

In a general view Canada consists of the mountainous region of the west; the prairie country between the Rocky Mountains and Hudson Bay, and the woodland region comprising the provinces of Ontario, Quebec, New Brunswick and Nova Scotia. The width of these several belts, east and west is; Mountain, 600 miles; prairie, 1,000; woodland, 2,300.

The great spruce forest of Canada extends through all the eastern provinces, goes as far north as Ungava Bay on the east side of Hudson Bay, and as far north and north-west, on the west side of Hudson Bay as Coronation Gulf and the mouths of the Mackenzie River,—thus constituting one of the greatest pulp wood regions in the world.

Representative institutions were granted by the British government to Nova Scotia in 1758, to Prince Edward Island in 1773, to New Brunswick in 1785. Upper and Lower Canada were separated in 1791, each province receiving a Legislature. The Imperial Act creating the two provinces contained the germ of responsible government which was brought into active exercise in 1841, when the two provinces were re-united. Responsible government was definitely established in the province of Canada in 1847. It was granted by the Imperial Parliament to Nova Scotia and New Brunswick in 1848, to Prince Edward Island in 1851, and to British Columbia in 1871.

The North-west Territories were governed at first under the administration of the Lieutenant-Governor of Manitoba; then by a Lieutenant-Governor and Council nominated by the Dominion Government (Act 1880); then by a Lieutenant-Governor and Council, part elected and part nominated; then in 1888 by a Lieutenant-Governor and an Advisory Council of four persons selected from an elected Assembly of 22 members; then by a Lieutenant-Governor, an Executive and a Legislative Assembly, with powers the same as those conferred on the legislatures of the other provinces, excepting as to the borrowing of money on the sole credit of the *vince*. Finally, by a Lieutenant-Governor and an Executive Council

selected by the Governor from the Assembly and re-elected, on accepting office, by the people, the latter arrangement having come into force on 1st October, 1897.

In the session of 1887 the districts of Assiniboia, Alberta, Athabasca and Saskatchewan were represented for the first time in the Dominion Parliament, four representatives in the House of Commons and two in the Senate being given to them.

The district of Yukon was constituted and declared to be a separate territory under the name of the Yukon Territory by Chap. 6, Acts of the Parliament of Canada, 1898, and amended by Chap. 11, Acts of 1899. The first commissioner was appointed by Order in Council, dated 4th July, 1898.

The first representative in the Federal Parliament was elected on Dec. 2nd, 1902, pursuant to Chap. 34, Act 2nd Edward VII.

The system of government established in Canada under the Union Act of 1867 is a Federal Union (the first of the kind in the British Empire) having (a) a general or central government controlling matters essential to the general development, the permanency and the unity of the whole Dominion, and (b) a number of local or provincial governments having the control and management of certain matters naturally and conveniently falling within their defined jurisdiction, while each government is administered in accordance with the British system of parliamentary institutions.

The chief executive government and authority is vested in the Sovereign, in whom is also vested the chief command of the militia and of all naval and military forces in Canada. His Majesty is represented by a Governor General, appointed by the King in Council but paid by Canada.

The Parliament of Canada consists of first, the Sovereign; 2nd, an Upper House, called the Senate; and 3rd, a Lower House, called the House of Commons.

The Governor General governs under the advice of a Council of Ministers, known as the King's Privy Council for Canada, which is responsible to the Parliament.

The Senate, as at present constituted, consists of 81 members, 24 each from Ontario and Quebec, ten each from Nova Scotia and New Brunswick, four each from Prince Edward Island and Manitoba, three from British Columbia, and two from the North-west Territories.

The House of Commons, which is elected by the people for a term of five years, consists at present of 213 members.

This number is fixed under the provisions of the Act of Confederation and the representation is arranged after each decennial census, by Act of Parliament, the basis being that the province of Quebec is always to have 65 representatives, and each of the other provinces such a number as will give the same proportion of representatives to its population as the number 65 bears to the population of Quebec as ascertained by the census. British Columbia, by the terms of the agreement made between the Dominion and province prior to the union, is never to have less than six members.

The number of representatives and the population to each member are as under :—

Provinces.	Number of Representatives.	Population to each Member.
Ontario.....	92	22,982
Quebec.....	65	22,900
Nova Scotia.....	20	22,520
New Brunswick.....	14	22,947
Prince Edward Island.....	5	21,815

The Electoral Franchise.

In addition to those of age, citizenship and sex (male of full age of 21 and a British subject) common to all voters in the provinces, the further qualifications of electors for Representatives in the House of Commons are regulated by Chap. 14, Act of 1898, which provides that the provincial franchises and provincial machinery shall be adopted, and that special disqualifications caused by the holding of federal offices shall be set aside.

In Ontario the qualification is practically residential manhood suffrage, the term of residence being, within the province 9 months and within the municipality from the time fixed for beginning to make up the assessment rolls to the date of voting.

In Manitoba practically residential manhood suffrage, the term being 12 months within the province and 3 months within the electoral division.

In British Columbia practically residential manhood suffrage, the term being 6 months in the province and 1 month in the electoral district.

In North-west Territories practically residential manhood suffrage, the term being 12 months within the territories and 3 months in the electoral district.

In the province of Quebec, qualifications for voter are ownership or occupancy of real property, position as teachers or clergymen after 5 months' domicile in electoral district; income or personal property of specified amount—real or real and personal, valued at \$300, \$200 and \$100 (fishermen). Income, rentiers, \$100; others \$300. Absentees in the United States may vote if they have returned with their families and have resided in electoral district 1 month before election day.

In Nova Scotia qualifications are ownership or occupancy of real property, valued at \$150; real and personal property or personal alone, \$300; widows sons, \$150; fishermen, \$150; income, \$250, and residence of 12 months in electoral district.

In New Brunswick qualifications are, ownership of real property valued at \$100, or personal and personal and real, \$400; position as clergymen, teachers or professors in colleges; income of \$400; residence in electoral district the term of residence requisite being 12 months in electoral district *ending the first day of May of the year in which the list is made up.*

Prince Edward Island.—Full age, male, British subject by birth or naturalization. In the electoral district of Charlottetown Common and Royalty the owner of freehold estate, or actual possessor of one water lot, common lot, town lot or pasture lot, within the electoral district of the clear annual value of \$6, and in other electoral districts is owner or occupier of dwelling house, warehouse, shop or other building, or farm or piece of land within the electoral district of the clear annual value of \$6; having owned or occupied it for 6 months before the teste of the writ for holding the election; (2) or has performed statute labour on the public roads or commuted the same; having resided a twelvemonth in the electoral district; (3) or in the city of Charlottetown and the town of Summerside, has paid poll and civic tax for the year immediately preceding the election and has resided for a twelvemonth in the electoral district; (4) or is in actual occupancy of farm value at \$100.

The disqualifications (other than those of Federal officers) are:

Ontario.—Judges of Supreme Court of Canada and of Ontario, of Exchequer Court and County Courts; Clerks of the Peace, County Crown Attorneys, Registrars, Sheriffs and their Deputies, Deputy Clerks of the Crown, agents for the sale of Crown lands; Stipendiary Magistrates, Police Magistrates of cities of 30,000 inhabitants; imprisoned criminals, lunatics and paupers; Returning officers, election clerks, persons engaged as counsel, agents and solicitors or persons interested in the elections owing to pecuniary considerations promised or paid; unenfranchised Indians.

The Federal officers disqualified from voting in provincial elections in Ontario are:

Postmasters in towns and cities.

Officers of the customs and excise.

Quebec.—Same as in province of Ontario and in addition collectors of provincial revenue and officers and men of the provincial police force; contractors till after 6 months from the close of their contracts with the Dominion or Provincial Governments; absentees (other than owners) if in the United States for a year and a day unless they have returned with their families for a month before election day, with intention to reside in province.

No Federal officers of the several departments are disqualified in the province of Quebec.

New Brunswick.—Judges of the Supreme Court of the province, the sheriffs (each in the county of which he is sheriff); criminals in jail; lunatics and paupers and Indians.

No Federal officers as such are disqualified.

Nova Scotia.—Judges of the Supreme Court, employees of the Crown land office and of local public works and mine office; paupers and all employees in receipt of wages, &c., within 15 days before election in the Customs, Inland Revenue, Government railway or post office, but not to extend to postmasters, post office keeper, way post keeper or mail courier.

Manitoba.—Judges of the Court of King's Bench and County Courts; Indians or persons of Indian blood receiving annuities; lunatics, idiots and prisoners, officials of the Dominion or the province, registrars, sheriffs, County Court clerks, bailiffs in receipt of \$350 annually as such officers; regular soldiers and persons enrolled in military schools and all persons not

British subjects by birth who have not resided 7 years in the Dominion, unless they are able to read the Manitoba Act in either French, English, German, Icelandic or any Scandinavian language.

Voting in elections is by ballot. The North-west Territories, previously to 1894, had open voting; chap. 15 of Acts of 1894, changed that mode to the one adopted in all the other provinces.

No property qualification is demanded from a member of the Commons, nor is he limited to a residence in the district for which he is elected.

General elections are simultaneous throughout the Dominion of Canada. The number of voters on the voters' lists at the latest dates obtainable, 1887 and 1891 being added for purpose of comparison, is as follows :—

CANADA.

Year.	Voters on Electoral Lists.	Increase.		Proportion to Population
		Number.	Per cent.

‡ General elections for House of Commons. ** No lists of voters; figures are those of actual votes.

The constitutions of the four provinces, viz., Ontario, Quebec, Nova Scotia and New Brunswick, which composed the Dominion in 1867 (when the Act of Confederation was passed), are the same in principle and details, except that Ontario and New Brunswick have only one chamber, a Legislative Assembly; the other two being bicameral. Of the provinces since created or admitted each has only one house, an elective Assembly.

In details the Dominion Parliament is closely copied.

The members of the Legislatures as well as the Members of Parliament are paid an indemnity for attendance.

Municipal institutions are general. In the complete form as adopted by Ontario, Manitoba, British Columbia and other provinces, the whole municipal organization comprises (a.) The townships, being rural districts of an area of eight or ten square miles; (b.) Villages with a population over 750; (c.) Towns with a population of over 2,000. Such of these as are comprised within a large district, called a county, constitute (d) the county municipality; (e) Cities are established from the growth of towns when their population exceeds 15,000.

The townships and villages are administered by a reeve and councillors; the towns by a mayor and councillors, and the cities by a mayor and aldermen. The governing body of the county municipality is composed of the members elected by districts containing one or more townships or villages, the presiding officer being styled warden.

By the Act of Confederation it is provided that the Governor General in Council shall appoint the judges of the Superior, District and County Courts, the salaries, allowances and pensions for whom are fixed by the Dominion Parliament.

The highest court in Canada is known as the Supreme Court of Canada. It has an appellate, civil and criminal jurisdiction in and throughout Canada. It has also appellate jurisdiction in controverted election cases, and may examine and report upon any private bill or petition for the same. It has jurisdiction in case of controversies between the Dominion and the provinces, and between the provinces themselves on condition that the Legislatures pass Acts agreeing to such jurisdiction. Under Act of the Canadian Parliament passed in 1891, the Governor in Council may refer to the Supreme Court for an opinion upon any matter which he deems advisable in the public interest.

The court is presided over by a chief justice and five puisne judges. From its decision an appeal lies by leave to the Judicial Committee of the Privy Council of England, except in criminal cases; in these the judgment of the Supreme Court is final.

The Exchequer Court, presided over by a single judge, possesses exclusive original jurisdiction in all cases in which demand is made or relief sought in any suit or action of the Court of Exchequer, on its revenue side, against the Crown or any of its officers. This court also possesses original jurisdiction in all cases in which it is sought to enforce any law relating to the revenue. It is also a Colonial Court of Admiralty.

The superior courts of the several provinces are constituted as follows:—
Ontario—The Supreme Court of Judicature, consisting of two permanent divisions called respectively the Court of Appeal for Ontario and the High Court of Justice for Ontario. The first division is composed of a Chief Justice and four puisne judges; the second is divided into three parts having concurrent jurisdiction, King's Bench, Common Pleas and Chancery, the first two of which are presided over by a Chief Justice and two judges for each, and the third of which is composed of a chancellor and three judges. **Quebec**—The Chief Justice of the King's Bench and five puisne judges, and the Chief Justice of the Superior Court and twenty-nine puisne judges, whose residences are fixed in various parts of the province. **Nova Scotia and New Brunswick**—The Chief Justice of the Supreme Court, the Judge in Equity and five and four puisne judges respectively. **Manitoba**—The Chief Justice and three puisne judges. **British Columbia**—The Chief Justice and four puisne judges. **Prince Edward Island**—The Chief Justice and two assistant judges. In the North-west Territories there are five puisne judges of the Supreme Court.

There are also county courts with variously limited jurisdiction in all the provinces, but not in the North-west Territories. Police magistrates and justices appointed by the provincial governments have their place in the administration of justice.

The Mounted Police Force in the North-west Territories constitute a tribunal of justice, the Commissioner and the Assistant Commissioner having all the powers of a stipendiary magistrate, and the superintendents being ex-officio justices of the peace.

Part of the unorganized territories came into possession of Canada by virtue of the Queen's Order of June 23, 1870 (see *Statutes of Canada*, 1872, p. lxiii) and part by virtue of the Queen's Order of 21st July, 1880 (see *Statutes of Canada*, 1881, pp. ix., x).

As to the portion of the unorganized territory which was by the Queen's Order of 23rd June, 1870, transferred to the Dominion, it may be taken that the law of England as it stood on 2nd May, (o.s.), 1670—the date of the Hudson's Bay Company's charter—applies, subject only to such ordinances as were enacted in references thereto by the Hudson's Bay Company.

With respect to the other unorganized territories, the title to which was acquired under the Queen's Order of 21st July, 1880, the Order itself states that such territory shall become and be subject to the laws for the time being in force in the Dominion in so far as they be applicable to such territories.

By Chap. 47, Federal Acts of 1899, offences committed in any part of Canada east of the province of Manitoba and the district of Keewatin and north of the provinces of Ontario and Quebec may be tried within the provinces mentioned, the provincial courts of criminal jurisdiction being constituted courts with competent powers.

FATHERS OF CONFEDERATION.

Of those who took part in the deliberations of 1864, which resulted, on July 1, 1867, in the union of the four provinces of Ontario, Quebec, Nova Scotia and New Brunswick, as the Dominion of Canada, the following are alive at the present date (February, 1903):—

Hon. Wm. McDougall, C. B., born January 25, 1822.
 Hon. Sir Oliver Mowat, G.C.M.G., born July 20, 1820.
 Hon. Sir Hector Langevin, K.C.M.G., C.B., born August 25, 1826.
 Hon. Sir Charles Tupper, Bart., G.C.M.G., C.B., born July 2, 1821.
 Hon. R. B. Dickey, K.C., senator, born November 10, 1811.
 Hon. Sir Ambrose Shea, K.C.M.G. (Nfld.), born 1818.
 Hon. A. A. McDonald, senator, born February 14, 1829.

The following is a list of those who have died, with the date of their deaths, and the province they represented in the Conference:—

Hon. Sir E. P. Tache, Quebec, born September 5, 1795; died July 30, 1865.
 Hon. Ed. Whalen, P. E. I., born July 25, 1824; died December 10, 1867.

TREATIES.

In the Year Book of Canada for 1895, a digest was given of the Treaties relating to Canada made by our sovereigns with the rulers of other countries.

On 8th February, 1896, a convention was signed by Great Britain and the United States, providing for reference to two commissioners to determine the liability of the United States in respect to claims on account of injuries sustained by persons in whose behalf Great Britain is entitled to claim compensation under the provisions of the treaty between Great Britain and the United States, signed 29th February, 1892, concerning the jurisdictional right of the United States in the waters of Behring Sea and the preservation of the fur seal therein.

Mr. Justice Putnam, on behalf of the United States, and Mr. Justice King, on behalf of Canada, were appointed commissioners in July, 1896. The King of Sweden consented to act as umpire. The Dominion Parliament passed the necessary Act on 23rd April, 1896. The commissioners, after holding sessions in several cities, met in Boston, in December, 1897, and gave their award against the United States in the sum of \$463,454. This amount was paid on 16th June, 1898.

On 30th July, 1897, the Government of the United Kingdom denounced the commercial treaties with Belgium and Germany which had been in force since 1862 and 1865, respectively. Under the treaties, a year's notice was required. These treaties, therefore, ceased to be operative on 30th July, 1898.

British Treaties of Commerce affecting Canada are :

(Arranged alphabetically.)

1825. Argentine Confederation.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1876. Austria-Hungary.—Reciprocal most-favoured stipulations. Applicable to British colonies and foreign possessions. Terminable one year after notice.

1840. Bolivia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1897. Bulgaria.—Reciprocal most-favoured nation stipulations. Applicable to Canada on her accepting. To remain in force till end of December, 1899. Canada declined to accede. O.C., Nov. 16, 1897.

1866. Columbia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. Terminable one year after notice.

1883. Corea.—Article X. stipulates that the government, public officers and subjects shall participate in all privileges, immunities and advantages, especially in relation to import or export duties on goods and manufactures, which shall then have been granted or may hereafter be granted by His Majesty the King of Corea to the government, public officers or subjects of any other power. Applicable to British colonies unless excepted by notice. May be modified one year after notice.

1849. Costa Rica.—For foreign affairs reciprocal most-favoured nation stipulations. Applicable to British territories and dominions. Terminable one year after notice. The Secretary of State received from the Minister for Foreign Affairs of the Costa Rican Republic a note denouncing Articles V., VI. and VII. of this treaty and these accordingly ceased and determined on 26th November, 1897. They related to the most-favoured nation stipulations.

1860-61. Denmark.—Confirmed 1814. Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1860. Dominican Republic.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. Terminable on notice.

1893. Treaty with France, Paris.—Commercial agreement between the United Kingdom (on behalf of Canada) and France.

Article I. provides that still wines less than 26 per cent alcohol shall be exempt from the surtax or ad valorem duty of 30 per cent. That the duty on common and castile soaps shall be reduced one-half, and the duty on nuts, almonds, prunes and plums by one-third.

Article II. provides that tariff advantages granted by Canada to a third power shall be enjoyed by France, Algeria and French colonies.

Article III. provides that certain goods of Canadian origin shall be subject only to the minimum duty in France, Algeria and French colonies, viz.: Canned meat, condensed milk, fresh water fish, fresh lobsters and crawfish preserved in their natural forms, apples and pears, fresh or dried, preserved fruit, building timber, wood pavement, staves, wood pulp, tanning extract, common paper, prepared skins, boots and shoes, common furniture, except chairs, flooring of soft wood and wooden ships.

Hawaii.—See Sandwich Islands.

1848. Liberia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

1865 and 1883. Madagascar.—Special stipulations Applicable to British dominions. No term fixed.

1856. Morocco.—Most-favoured nation clause in favour of British subjects. Applicable to British dominions. No term fixed.

1891. Muscat. Most-favoured nation clause in favour of British subjects, and duties not to exceed 5 per cent. Applicable to British colonies and possessions. Canada was excepted but acceded by Order in Council, 6th February, 1893. May be revised and amended after twelve years, on one year's notice.

1841 and 1857. Persia.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

Portugal.

(Imperial Blue Book Com. No. 17, 1893, says that the treaties of 1842 and 1882 have expired, but British trade continues to enjoy most-favoured nation treatment in Portugal.)

1859. Russia.—Reciprocal most-favoured nation stipulations, except Sweden and Norway. Applicable to British dominions. Terminable one year after notice.

1883. Siam.—Most-favoured nation clause in favour of any part of the British dominions for spirits, beer, wines, &c. Applicable to British dominions for spirits, beer, wines and spirituous liquors. Terminable after six months' notice.

1892. Spain.—By Royal Order of 29th June, 1892, Spain ordained that so long as the United Kingdom granted the most-favoured nation treatment, British goods imported into Spain should enjoy the benefit of being subject to the duties of the second column of the tariff.

1826. Sweden and Norway.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Terminable one year after notice.

1855. Swiss Confederation.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Terminable one year after notice.

1875. Tunis.—Reciprocal most-favoured nation stipulations. Applicable to British colonies. Revised in September, 1897, to continue to end of 1912. Six months' notice to be then given.

1825 and 1834. Venezuela.—Reciprocal most-favoured nation stipulations. Applicable to British dominions. No term fixed.

‡No notification of the treaty with Zanzibar was, apparently, received from the Imperial authorities.

EXTRADITION TREATIES.

Extradition proceedings in Canada are governed by "The Extradition Act," chapter 142 Revised Statutes of Canada, 1886.

This Act applies to any foreign state with which there is an extradition arrangement, but so as not to contravene such arrangement.

If the Imperial Extradition Act of 1870 is made subject to any limitation by such arrangement, this Act shall be subject to the same limitation.

Judges of the Superior and County Courts, and commissioners appointed for the purpose, have power to act.

A warrant being issued for the fugitive, the judge is to receive evidence as to the charges and as to whether the offence is not an extraditable crime or of a political character, for which he cannot be surrendered. After commitment, the fugitive may be surrendered after fifteen days.

In case of the extradition of a Canadian fugitive by a foreign State cannot be prosecuted or punished for any prior offence not of a nature included in the extradition arrangements with the State in question.

The extradition crimes contained in a schedule to the Act are: Murder or attempts and manslaughter; counterfeiting and forging, larceny, embezzlement, obtaining value under false pretenses, crimes against bankruptcy or insolvency law, criminal frauds by agents, trustees, &c.; rape, abduction, child-stealing, kidnapping, false imprisonment, burglary, arson, robbery, threats to extort, perjury and subordination; piracy and various other crimes at sea. Criminal accessories are included.

The Imperial authorities, by Order in Council, exempt Canada from operation of the Imperial Extradition Acts of 1870 and 1873, so long as the Canadian Extradition Act remains in force.

The treaties made by Canada with the Indian tribes are contained in "Treaties of Canada with the Indians of the North-west, 1880," by Hon. Morris, and in "Indian Treaties and Surrenders," Department of Indian Affairs, Ottawa. A digest of these was given in the Year Book of 1895.

There is a very large area of land throughout Canada available for settlement, either for agricultural or for mining purposes, the disposition of which is in the hands of the Dominion Government and of the several Provincial Governments, according to situation. These lands are known generally as Crown Lands."

The Crown Lands of the Dominion, commonly called Dominion Lands, are situated in Manitoba, the Territories, and what is known as the Railway Belt in British Columbia, and comprise some of the finest agricultural lands on the continent. In order to provide every facility for information to immigrants and settlers, land agencies are situated at the most convenient points, where the fullest details can be obtained.

Under an Order in Council passed 25th November, 1885, a large tract of land, inclosing several hot mineral springs at Banff, Alberta, was set apart as a national park to be known as "Rocky Mountains Park of Canada." Under an Order in Council passed 10th October, 1886, certain other reservations in the Rocky Mountains were also made for park purposes. These Orders in Council were passed under authority of provisions contained in the "Dominion Lands Act," respecting the reservation of public lands for park purposes, but the reservation of the Rocky Mountains Park was confirmed and particularly defined by the "Rocky Mountains Park Act, 1887,"

† Tonga subjects escaping to British Territories only.

chap. 32 of 50-51 Vic., and its boundaries extended by chap. 31, Ac 1902. Since its reservation many improvements have been complete the park; roads have been made, bridges built, burnt timber and brushwood removed, buildings erected at the Hot Springs at the "Cave Basin," for the convenience of bathers and other visitors; and late museum which already contains an interesting collection of 1,339 art found within the park or elsewhere in the Rocky Mountains, has added to the attractions of this park. The majority of visitors call a Cave and Basin, and in 1898, of those who registered there, 1,366 Canadians, 721 were from the United States, 280 from England, Scotland and Ireland, and the remainder from France, Germany, India, Austria, China, Japan and other countries. For the year 1899, the number 2,775, of whom 1,491 were Canadians, 765 from the United States from England, Scotland and Ireland, and the remainder from other countries. For the year 1900 the number was 2,702, of whom 1,515 were Canadians, 805 from the United States, and 229 from England, Scotland and Ireland—the remainder from other countries. The total number of visitors to the park during the year 1900 was about 7,000. The total number of visitors to the park for the year ended the 30th June, 1901, was 7,000. The total number of visitors to the park for the year ended the 30th June, 1902, was 9,473.

By Order in Council of the 14th December, 1901, published in *Ct Gazette* of 8th February, 1902, a large tract of land near Field, B.C. set aside as a Dominion Park Reserve, to be known as the Yoho Reserve.

The following are the comparative figures for the last twelve years of transactions in Dominion Lands. The pre-emption system was terminated on 1st January, 1890.

The annual average number of acres taken up during the period 1874-1902 was 638,052 acres. In 1901, the number was more than double the average of 1891-9, and in 1902 it was more than five times that average.

The following statement shows the number of homestead and pre-emption entries reported in each year from 1874, and the number and proportion

The Canadian North-west Irrigation Company has large landed properties in the neighbourhood of Lethbridge, under a canal system embracing 115 miles of main waterways, the construction of which has aided materially in developing the resources of the district. Amongst the projects now under

construction is a beet sugar factory of large capacity together with roller mills and elevators, all of which will add to the earning capabilities of the lands tributary to the company's canal.

Inquiries addressed to the company's offices, Lethbridge, Alberta, will receive prompt attention.

In the session of 1894, an Act was passed entitled the "North-west Irrigation Act." This Act has been so framed as to provide for careful supervision, by the Government, of the first distribution, and the subsequent supervision of the available water supply in the arid region. Some of the provisions under which the control is so exercised are departures from the methods heretofore adopted on this continent, but those best qualified to judge speak of the system adopted as calculated to establish irrigation enterprises upon sound basis.

At the close of the season of 1901, there were 169 irrigation ditches and canals in operation in southern Alberta and western Assiniboia, with a length of 469 miles. These have a carrying capacity sufficient to irrigate 14,684 acres. Number of water rights recorded for domestic, power and other purposes, 127. The results which have followed have been most encouraging. There is now no reason to doubt that through irrigation a large portion of Assiniboia and Alberta will be rendered fruitful every year, and the element of uncertainty caused by variations in the rainfall altogether eliminated from the calculations of those engaged in extensive agricultural operations.

The Deputy Minister of the Interior reports that during the year 1901 there was an unusually heavy rainfall, so that irrigation was not resorted to in many districts where crops during dry years cannot be successfully raised without the artificial application of water.

The Provincial Crown Lands are situated within the limits of the several provinces, and are controlled by the respective governments, from whom particulars of transactions concerning them can always be obtained. Summaries of the regulations for the disposition of Dominion Lands, Provincial Lands and the lands belonging to the principal railway companies who have received land subsidies in Manitoba and the North-west Territories are given below.

LAND REGULATIONS.

Under the Dominion Lands Regulations, all surveyed even-numbered sections (excepting 8 and 26) in Manitoba and the North-west Territories, which have not been homesteaded, reserved to provide wood lots for settlers, or otherwise disposed of or reserved, are to be held exclusively for homesteads.

Homestead Entry for one quarter section (160 acres) of surveyed agricultural land, open to such entry, may be obtained by any person who is the sole head of a family, or by any male who has attained the age of eighteen years, on application to the local agent of Dominion Lands, and on payment of an office fee of \$10.

The homesteader must perfect his entry by beginning actual residence on his homestead and cultivation of a reasonable portion thereof, within six months from the date of entry, unless entry shall have been made on or

after the first day of September, in which case residence need not commence until the first day of June following, and is required by the provisions of the Dominion Lands Act and the amendments thereto to perform the conditions connected therewith, under one of the following plans :—

(1.) At least six months' residence upon and cultivation of the land during the term of three years.

(2.) If the father (or the mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3.) If a settler has obtained a patent for his first homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead.

(4.) If the settler has his permanent residence upon farming lands owned by him in the vicinity of his homestead the requirements of this Act as to residence may be satisfied by residence upon the said land.

In the event of a homesteader desiring to secure his patent within a shorter period than the three years provided by law, he will be permitted to purchase his homestead, at the Government price at the time of entry, on furnishing proof that he has resided on the land for at least twelve months from the date of his perfecting his homestead entry, and that he has brought at least thirty acres thereof under cultivation.

The Government make no advance of money to settlers, but for the better encouragement of bona fide settlement, in cases where any person or company is desirous of assisting intending settlers, when the sanction of the Minister of the Interior to the advance has been obtained, the settler has power to create a charge upon his homestead for a sum not exceeding six hundred dollars, and interest not exceeding 8 per cent per annum, provided the particulars of the expenditure of such an advance for his benefit be first furnished to and acknowledged by the settler and verified by the local agent, homestead inspector, or other agent, appointed by the Minister of the Interior; or if the charge be made previous to the advance, then such charge shall only operate to the extent certified to by the local agent, homestead inspector or other agent as having been actually advanced to or expended for the benefit of the settler. The advance may be devoted to paying the cost of the passage of the settler, paying for the homestead entry, providing for the subsistence of the settler and his family, erecting and insuring buildings on the homestead, and breaking land and providing horses, cattle, furniture, farm implements, seed grain, &c.

For the further protection of the settler, it is provided that the time for payment of the first instalment of interest on any such advance shall not be earlier than November 1 in any year, and shall not be within less than two years from the establishment of the settler upon the homestead, and also that the settler shall not be bound to pay the capital of such advance within a less period than four years from the date of his establishment on the homestead.

The odd numbered sections are at present reserved for the purpose of *being granted as land subsidies in aid of the construction of colonization*

railways in Manitoba and the North-west Territories, except in special cases otherwise ordered by the Minister of the Interior.

Payments for land may be made in cash or by such scrip as has been issued by the Department of the Interior for that purpose.

A homestead settler, whose land is destitute of timber, may, upon payment of an office fee of 25 cents, procure from the Crown Timber Agent a permit to cut the following quantities of timber free of dues: 3,000 lineal feet of building timber, 400 roof poles, 500 posts and 2,000 fence rails. Any settler may obtain a permit, on payment of same fee, to cut dry timber for fuel or fencing for his own use.

In cases where there is timbered land in the vicinity available for the purpose, the homestead settler, whose land is without timber, may purchase a wood lot, not exceeding in area twenty acres.

Licenses or permits to cut timber on surveyed or unsurveyed lands are granted, after competition, to the highest tenderer.

The price per acre for coal land is: For land containing lignite or bituminous coal, \$10, and for anthracite coal, \$20. The land may be sold by public competition or to the applicant.

When two or more parties apply to purchase the same land, tenders may be invited between the applicants, or it may be sold by public competition, by tender or auction, as may be deemed expedient, at the upset price of coal lands. A royalty of 10 cents per ton of 2,000 lbs. is collected on the coal mined.

Leases of grazing lands in Manitoba and the North-west Territories may be granted at an annual rental of two cents per acre. Leases shall be for a period not exceeding twenty-one years, and no single lease shall cover a greater area than 100,000 acres.

The lessee is obliged, within each of the three years from the date of granting of the lease, to place upon his leasehold not less than one third of the whole amount of stock which is required to place upon the tract leased, namely, one head of cattle for every twenty acres of land covered by the lease, and shall, during the rest of the term, maintain cattle thereon in that proportion.

After placing the prescribed number of cattle upon his leasehold, the lessee may purchase land within the tract leased for a home, a farm or corral.

Any portion of the land forming a grazing leasehold, unless otherwise provided in any lease thereof, is open for homestead or purchase from Government at the price obtaining in the class in which the lands are situate; and in the event of such settlement or sale, the lease (if any) to be void in respect of such lands so entered or purchased.

On April 3, 1889, judgment was given by the Judicial Committee of the Privy Council, declaring that the right to administer the minerals within the railway belt in British Columbia was vested in the government of that province. In order to dispose of the anomalous condition of affairs that consequently arose, viz., that the jurisdiction over the lands was vested in the Dominion Government, and the right to administer the minerals in that of the province, the following arrangement, ratified by Order in Council of February 28, 1890, was agreed upon between the two governments:—

No disposition of lands containing minerals (except coal lands) shall be made by the Dominion Government other than by patent in fee simple, thereby bringing the minerals at once under the administration of the provincial mining laws.

All lands containing minerals (except coal lands and Indian reserves) offered for sale by the Dominion Government, shall be open for purchase by the Provincial Government at the price of from \$1 to \$5 per acre.

Any land sought to be acquired by the Provincial Government under the last clause shall be set apart from alienation by the Dominion, upon the Provincial Government making a written application for the same. Such lands to be surveyed (if not already done) by a Dominion land surveyor, at the expense of the Provincial Government.

Nothing in the agreement shall apply to coal lands.

The agreement may be terminated at any time by either government.

All minerals, including gold and silver, within Indian reserves, shall be administered by the Department of Indian Affairs.

ONTARIO.

Agricultural lands can be obtained from the Crown by actual settlers only, subject to conditions as to improvements and residence before the issue of the patent. In some districts free grants of land are offered, and in others the land is for sale at the uniform price of 50c. per acre. In Nipissing district including the Temiskaming townships in the Eastern part of New Ontario, in Algoma, in the middle west and in Wabigoon or Dryden further to the west the land is for sale in lots of 160 acres, but in case a portion is rough and broken the quantity may be increased so as not to exceed 240 acres. The settlement conditions to be fulfilled before a title is granted are the erection of a habitable house 16 x 20 ft. at least and the clearing of 10 per cent of the land. There are slight differences in the several localities as to the time allowed for the payment of the purchase money and the number of years residence required on the land before the issue of the patent.

The Temiskaming region possesses the largest continuous area of first-class land of all the sections now open for settlement. The thirty-three townships thus far thrown open to settlers extend in a north-westerly direction from Lake Temiskaming. The settlement will shortly be closely connected with the leading markets of the Dominion by the opening up of railway communication by way of North Bay.

The fertile area of the Wabigoon country, situated almost in the centre of the Rainy River district, comprises nine townships having a total area of about 234,000 acres in addition to a large area of good land yet unsurveyed. The Canadian Pacific Railway runs through this tract for about 40 miles.

The Free Grant system prevails in Muskoka, Parry Sound and Thunder Bay districts, and in the Rainy River Valley the quantity obtainable by one individual varying from 100 to 160 acres. In the Rainy River Valley where townships have been surveyed for settlement with an area of about 600,000 acres, the limit of a grant is 160 acres, but the head of a family locating is entitled to purchase an additional 80 acres at \$1 per acre. A single male settler may be located for 120 acres and purchase an additional 80 acres on the same terms. The settlement duties in this district include the clearing of 15 acres during 3 years with the building of a house and continuous residence during that period, and similar provisions with some variations are in force in all the free grant districts.

In Thunder Bay district the locatee of a free grant of 160 acres may purchase another 160 acre lot at 50 cents per acre and the settlement

ations require 5 years residence to acquire a patent. Fuller particulars be obtained on application to the Commissioner of Crown Lands, Ontario.

QUEBEC.

On June 30, 1902, about 6,623,507 acres of land have been surveyed by Government of Quebec for sale.

Lands purchased from the government are to be paid for in the following manner:—One-fifth of the purchase money is required to be paid the day of the sale, and the remainder in four equal yearly instalments, bearing interest at 6 per cent. But the price at which the lands are sold is so low from 20 cents to 60 cents per acre (10d. to 2s. 5½d. stg.)—that these conditions are not very burdensome.

The purchaser is required to take possession of the land sold within six months of the date of the sale, and to occupy it during two years from the date of the sale. He must clear and have under crop, in the course of four years, ten acres for every hundred held by him, and erect a habitable house the dimensions of at least 16 feet by 20 feet. The letters patent are issued free of charge. The parts of the province of Quebec now inviting colonization are the Lake St. John district, the valleys of the Saguenay, Maurice and Ottawa Rivers, the Eastern Townships, the Lower St. Lawrence, Lake Temiscamingue, Gaspé and Metapedia Valley.

The Temiscamingue settlement, at the head of Lake Temiscamingue on the Upper Ottawa, consists of a level tract of many thousands of acres of rich calcareous clay.

OTHER PROVINCES.

There are now in Nova Scotia about 1,500,000 acres of ungranted lands, considerable quantity of which is unsuited for cultivation. Most of the best land has been granted and is now occupied, but a very large area of the province has been granted for lumbering purposes, and is now being used by lumbering establishments.

The price of Crown lands is \$40 per 100 acres. Until April, 1764, the only reservations of minerals on Crown lands were gold, silver, precious stones and Lapis Lazuli. From 1764 to 1807 the mineral reserves included gold, silver, Lapis Lazuli, precious stones, lead, copper and coal. After 1807 the reserves included coal, gold, silver and other mines and minerals. After 1808 iron was reserved. In 1892 it was provided that all minerals and rocks should be reserved, excepting limestone, plaster and building materials. In 1899 it was provided by statute that lands for lumbering purposes could be leased instead of granted absolutely. The lease to be for 20 years with right to renew for another 20 years. Price of lease, 40 cents per acre and 40 cents per acre upon renewal.

If the lease is for the cutting of pulp wood which enables the lessee to cut timber not less than five inches in diameter, the charge is 50 cents per acre rented. Timber leases at 40 cents per acre only permit the cutting of timber 10 inches or more in diameter.

In 1901 a provision was made requiring all leases to contain a proviso that the Government may at any time during the term of the lease, grant any portion of the land so leased, not exceeding 200 acres, to any one who satisfies the government that he proposes to become a *bona fide* settler, erect a dwelling and cultivate and improve the land so granted. Upon

such grant being issued the Department of Crown Lands is to refund to the lessee the amount of 40 cents or 50 cents per acre, as the case may be, for the number of acres of land so granted.

It is estimated that there are about 7,000,000 acres of ungranted lands in New Brunswick.

Crown lands may be acquired for actual settlement as follows :—

(1.) One hundred acres are given to any settler over eighteen years of age, not owning other land, who pays \$20 (£4) in cash, or does work on the public roads, &c., equal to \$10 (£2) per annum for three years. Within two years a house 16 by 20 feet must be built and 2 acres of land cleared. Continuous residence for three years from date of entry, and the cultivation of 10 acres in that time are required.

(2.) Single applications may be made for not more than 200 acres of Crown lands without conditions of settlement. These are put up at public auction at an upset price of \$1 per acre. Purchase money to be paid with application. Cost of survey to be paid by purchaser. The above sections apply only to land fit for agricultural purposes. Lands well timbered are not sold outright.

Any person being the head of a family, a widow or a single man over eighteen years of age, and a British subject, or an alien purposing to become a British subject, can pre-empt 160 acres of land belonging to British Columbia, west of Cascade Mountains, or 320 acres east of these mountains, at \$1 per acre. Two months' leave of absence under the Land Act, and an additional four months for sufficient cause, when applied for to the Commissioner, can be had in each year till the Crown deed is obtained. A certificate of improvement showing that the claim has been improved to the extent of \$2.50 per acre is necessary before a Crown deed can be issued. Timber and hay lands may be leased from the government. Timber lands pay a yearly rental and a royalty of 50 cents per 1,000 feet of all logs cut. Leases of land for other purposes may also be granted by the Chief Commissioner.

There are about 25,000 acres of vacant government lands available in Prince Edward Island, consisting of lands of medium or poor quality, and averaging in price from 25 cents to \$1 an acre.

RAILWAY LANDS.

The Canadian Pacific Railway lands consist of the odd-numbered sections along the main line and branches and in the Lake Dauphin district in Manitoba and in Northern Alberta. These lands are for sale at the agencies of the company in Manitoba and the North-west Territories at the following prices :

Lands in the province of Manitoba and in Assiniboia east of the 3rd Meridian \$3 to \$10 an acre.

Lands west of the 3rd Meridian \$3 to \$6 per acre.

If full payment is made at the time of purchase a discount of ten per cent on five-sixths of the purchase money is allowed. Lands for immediate settlement may be purchased with a cash instalment of a little more than one-tenth and nine equal annual instalments, including interest at the rate of six per cent. The payments for 160 acres at \$5 per acre on the settlement plan are cash \$119.85, and nine equal annual instalments of \$100 each, *including interest*.

Purchasers who do not undertake to settle upon the land within one year are required to pay one-sixth of the purchase money down, the balance in five equal annual instalments with interest at six per cent.

Liberal rates for settlers and their effects are granted by the company over their railway.

The unsold portion of the land grant of the Manitoba South-western Colonization Railway Company about 400,000 acres, is situate along the International boundary from range 13 in Manitoba to the western boundary of the province and in Southern Alberta. The terms of purchase are the same as those of the Canadian Pacific Railway Company, but in addition to the price the purchaser pays ten cents per acre to defray the cost of surveying the land, this amount being paid over to the government by the company.

The lands of the Columbia and Kootenay Railway and Navigation Company, the British Columbia Southern Railway Company and the Columbia and Western Railway Company are administered by the Canadian Pacific Railway Company. These lands are situated in the favoured district of Yale and Kootenay, and are sold at prices ranging from \$1 to \$5 an acre on terms similar to those governing the sale of the Canadian Pacific Railway lands.

The Qu'Appelle, Long Lake and Saskatchewan Railway Company's land grant consists of about 1,450,000 acres of land in the Saskatchewan district. The railway runs through the district, connecting with the Canadian Pacific Railway at Regina. Information regarding the lands can be obtained at the company's offices in Winnipeg or from the Saskatchewan Valley Land Company of 305 Jackson Street, St. Paul, Minnesota, who have purchased a large quantity of above lands.

The Calgary and Edmonton Railway Company's land grant consists of about 1,481,000 acres in Alberta. Information can be obtained at the company's land office at Winnipeg.

ROYAL EXCHANGE COLONIAL EXHIBITION, 1902.

The Royal Exchange Colonial Exhibition comprised colonial exhibits had been at Glasgow the year previous. It was opened by the Lord Mayor of London in state on March 10 and closed on May 3. The Canadian

exhibit covered one-half of the available area and consisted principally of minerals, forestry, food products, fruit (natural and in antiseptics), and a small agricultural display. It was non-competitive and solely gotten up as a means of educating the average city man as to the possibilities and resources of the colonies. It was a great success.

WOLVERHAMPTON ART AND INDUSTRIAL EXHIBITION, 1902.

The Wolverhampton Art and Industrial Exhibition, which was open for about six months, was opened on May 1 by H.R.H. the Duke of Connaught and remained open till November 8. Canada was the only country represented officially, and the exhibit was contained in a building erected by the Canadian Government for its own use. The principal features were agriculture, horticulture, food products, forestry and minerals. The exhibition was non-competitive. The Canadian portion was the best there and caused many enthusiastic and favourable comments.

CORK INTERNATIONAL EXHIBITION, 1902.

The Cork International Exhibition was open from May 1 to November 1, a period of six months, and while international in name it was not so in character, for although there were many stallholders of different nationalities, Canada was the only country officially represented. The Canadian exhibit was in a separate building erected by the Canadian Government for the purpose, and consisted principally of agriculture, horticulture, food products, forestry and minerals. The display was much admired, many competent and favourable opinions being offered, such as the following from a very prominent Irish Parliamentarian: 'In my opinion the Canadian Pavilion is one of the chief attractions of the Cork Exhibition.' There were no awards.

CENSUS.

The Census of 1901, taken according to the *de jure* system, gives the following results. For the purposes of comparison the electoral districts of 1901 have been taken as the basis, and the electoral districts of previous censuses rearranged so that the development or decrease in population in each district can be compared.

The first column gives the names of the electoral divisions; the second the population as ascertained by the census of 1901; the third the percentage of increase or decrease of population in 1901, as compared with the population in the same boundaries in 1891; the fourth gives the population of 1891, and the fifth the percentage of development or diminution in each electoral district when compared with the population in the same boundaries in 1881. The sixth column gives the population of 1881 by electoral divisions within the same boundaries as those of 1891 and 1901, and the seventh column gives the percentage of increase or decrease in 1881 compared with 1871.

POPULATION OF CITIES AND TOWNS OF 5,000 AND ABOVE.

Following are the cities and towns of the Dominion of Canada having, to the census of 1901, a population of 5,000 and upwards. For comparison the populations by the previous census-takings are given. Wherever necessary the annexations of territory have been taken into account, so as to give for each census-taking as exact a comparison as possible.

In the United States the urban population holds a much stronger position than in Canada.

On the whole of the United States on the same basis of 4,000 as the unit of urban life, the percentage of urban to total population is 37·3 in Canada's 26·12.

Montana with 29·4 and Ontario with 29·14 approach each other. Montana 28·8, Wyoming with 28·8 and Quebec with 28·9 are close together.

The nearest to Nova Scotia and New Brunswick are Kansas with 19·2 and Kentucky with 19·7. Prince Edward Island and South Carolina, with 11·7, are very close to each other in their proportion of urban population.

British Columbia with 41·2 and Michigan with 37·2 are the nearest to British Columbia, and Manitoba like Nova Scotia resembles Kansas and Kentucky.

New York state the urban population is 71·2 per cent of the whole of the State. In Massachusetts it is 86·9 per cent and in Rhode Island 91·6.

In 1891 the returns showed that Ontario had given 11,658 of her sons and daughters to the up-building of British Columbia, 46,620 to Manitoba and 13,594 to the Territories.

In 1901 the Ontario born dwellers in the west were, British Columbia, 23,642, Manitoba, 67,566 and the Territories, 30,243. In all 121,451 in 1901 against 71,872 in 1891.

In the same years Ontario sent to the eastern provinces, 1891, 16,738 and 1901, 21,888.

During the ten years, 1891-1901, the province of Ontario contributed (not counting persons who died) 54,739 persons to the population of the other provinces, or an average of 5,474 a year.

Quebec had given to British Columbia in 1891, 2,567 of her sons and daughters, increased in 1901 to 4,329; to Manitoba in 1891, 7,555, increased in 1901 to 8,492; to Ontario in 1891, 58,772, increased in 1901 to 61,776; to North-west Territories in 1891, 1,829, increased in 1901 to 5,504. In the same years Quebec sent to the Eastern Provinces, 1891, 4,364, increased to 5,374 in 1901.

Nova Scotia had given to New Brunswick by the Census of 1891, 5,527, the figures of 1901 show a decrease of 449, the total being 5,078; to Prince Edward Island in 1891, 1,950, decreased in 1901 to 1,433; to Quebec in 1891, 1,402, increased in 1901 to 1,540; to Ontario in 1891, 4,659, decreased to 3,012 in 1901; to Manitoba in 1891, 1,402, increased in 1901 to 1,536; to British Columbia in 1891, 2,656, increased to 4,603 in 1901; to the Territories in 1891, 879, increased to 1,739 in 1901.

New Brunswick had given by the Census of 1891, to Nova Scotia, 5,522, increased to 6,822 in 1901; to Prince Edward Island, 1,008, decreased to 691 in 1901; to Quebec, 1,511, increased to 2,101 in 1901; to Ontario, 2,763, decreased to 2,304 in 1901; to Manitoba, 718, increased to 820 in 1901; to British Columbia, 1,767, increased to 2,839 in 1901; to the North-west Territories, 406, increased to 1,025 in 1901.

Prince Edward Island had given by the census of 1891 to Nova Scotia, 1,694, increased to 2,484 in 1901; to New Brunswick, 2,718, increased to 2,740 in 1901; to Quebec, 497, increased to 740 in 1901; to Ontario, 813, increased to 884 in 1901; to Manitoba, 234, increased to 419 in 1901; to British Columbia, 535, increased to 1,180 in 1901; to the Territories, 226, increased to 644 in 1901.

Thus Ontario by the census of 1901 had contributed to the upbuilding of the west by giving 121,451 of her people, and to that of the provinces to the east by giving 21,888.

By the same census Ontario had received from the provinces east of her 67,976, and from the west 3,591, in all 71,567, so that she has given 71,772 more than she has received.

During the ten years her westward givings increased by 49,579 and her eastward 5,160, a total of 54,739 or an average of 5,474 per annum.

who had received from Quebec by the census of 1901, 61,776. By the census of 1891 there were in Ontario born in Quebec, 58,772.

indicating that Ontario received a net of 3,004 from Quebec during the years 1891-1901.

Quebec had received from Ontario by the census of 1901, 20,313. By the census of 1891 there were in Quebec born in Ontario, 15,541.

indicating that Quebec received a net of 4,772 from Ontario during the years 1891-1901.

During the ten years 1891-1901 Quebec received from Ontario 1,768 more than Ontario received from Quebec.

Quebec has contributed to the upbuilding of the provinces west of her by 40,101 of her people of whom 61,776 were given to Ontario, leaving 21,675 for Manitoba, the Territories and British Columbia, against 121,451 for Ontario.

The western provinces and territories had, according to the census of 1901, a population of 645,517, divided as follows:

Manitoba	255,211
British Columbia	178,667
The Territories	211,649
Total	645,517

From the Provinces of the East—

Ontario	121,451
Quebec	18,325
Nova Scotia	7,878
New Brunswick	4,684
Prince Edward Island	2,243
Total from East	154,581 = 23·94 per cent.
From the British Isles	83,579 = 12·94 "
From other British Possessions	2,788 = ·43 "
Born in the West	250,301 = 38·87 "
From Foreign Countries	145,369 = 22·52 "
Not given and at sea	8,290 = 1·28 "
Total	645,517

the foreign born constitute under one-fourth of the population born in the eastern provinces of Ontario, Quebec, and the Maritime provinces, constitute somewhat more than the foreign born, and the British born over three-quarters of the whole population.

The chief feature of the cattle export trade of Canada during the past few years is the segment of the exports of cattle to the United States. In 1893, under the operation of tariff of the United States the trade had declined to 492 animals from 67,758 in 1885. In 1894 there was a still greater diminution of the number to 256 cattle, the United States is scheduled Canadian cattle.

The Minister of Agriculture, determining to remedy this state of affairs, went to Washington and succeeded in effecting an arrangement by which the quarantine which Canada placed upon United States cattle and that which the United States had placed upon Canadian cattle were mutually removed, to date from February 1, 1897.

In the few months of the fiscal year ended June 30, 1897, the export of our cattle rose 1988 against a total number in the previous year of 1,646 head. In the five years, 1898-1902 the export to the United States rose to an annual average of 69,143.

In 1894, the import of cattle into Canada from the United States dwindled to 537 head increased during the three full years of absence of quarantine, 1898-1902, to an average of 372 head a year.

The following table is a comparison between the exports of agricultural produce of 1901 and 1902. It will be seen that there was an increase in volume of \$14,388,000 and an increase of \$1,498,000, due to an appreciation of prices, making an actual increase of \$15,886,053.

Development in the export of butter is the result of cold storage. Cold storage chambers cooled with ice were introduced on steamships in 1885, but this system failing to maintain throughout the voyage, the low temperature necessary for success, the more complete system of mechanical refrigeration was employed in 1897 on twenty-one ocean steamships sailing from Canadian ports. This gave a cold storage capacity of 100,000 packages of butter. The system of refrigerator cars on railways was developed in 1902, there were forty-eight different starting points to Montreal, and with cold storage transport, six sending to Montreal forthwith 43 weekly. The number of packages of butter carried in cold storage from Montreal during the season of navigation, 1898, was 209,172; 1899, 429,734; 1900, 227,863; 1901, 410,893, and in 1902,

525,735. At the end of the year (1902), by a system of bonusing, nearly 600 creameries were supplied with cold storage, thus completing the chain from producer to consumer.

The efforts of Canada to secure a larger share of the butter trade of the United Kingdom have resulted in a great success, as will be seen by the following comparative table, taken from British Returns, years ended December 31, 1895 and 1902:—

These figures indicate that the result of the cold storage is to increase largely the quantity exported and to increase greatly the price. The increase in the price applied to the quantity exported is equal to an increase of \$1,081,792 on the business of the season of 1902.

The outlay by the Department of Agriculture in connection with cold storage is as follows:—

Year ended June 30.	Amount.

Under an Act passed in 1882 to encourage sea-fishing and the building of fishing vessels, provision was made for the distribution of \$150,000 annually among the fishermen and vessels. By Act of 1891, chapter 42, the amount was increased to \$160,000. Vessels in 1901 were paid at the rate of \$1 per ton to owner, \$7 each to vessel fishermen, \$3.50 per man to boat fishermen, and \$1 per boat to the owners. The number of vessels which received bounty in 1901 was 786, with a tonnage of 25,605, showing a decrease of 16 vessels and of 1,034 tons as compared with 1900. The number of boats on which bounty was paid was 12,588, and the number of

boat fishermen who received bounty was 21,217, being a decrease of 11 boats and 814 fishermen, as compared with the previous year. The number of fishermen in vessels and boats to whom bounty was paid in 1882 was 27,431 as against 28,502 in 1900. The number of fishing boats claims filed was 13,393 and the number paid was 13,374. The bounties paid since 1882 amount to \$3,156,113, distributed as follows:

Prior to 1878 very few seals were killed by Canadian sealers. Hunting was not carried on further than 20 miles from shore.

The following statement shows the number of seals killed in 1883-1902:

	Number.		Number.
1883	9,195	1896	55,677
1889	35,310	1897	30,410
1890	43,325	1898	28,552

1894	95,048	1902	16,143
1895	73,614		

From 1871 to 1902 the total products of the Canadian pelagic sealing industry amounted to 777,613 seal skins.

In addition to the take of Canadian vessels in 1902, 582 skins were landed at B. C. which were sent to the London market.

STATISTICS OF TRADE AND COMMERCE.

TRADE AND COMMERCE.

Legal weights and measures of Canada are the Imperial yard, Imperial pound avoirdupois, Imperial gallon (of 277·27384 cubic inches), and Imperial bushel. The Imperial gallon is equal to 4·54174 litres, while the gallon, used in the United States, is equal to 3·785 litres.

Act 42 Vic. (1879), Chap. 16 (amended by Chap. 30, Acts of 1898), provided: That in contracts for sale and delivery of any of the under-mentioned articles the bushel should be determined by weighing, unless a measure be specially agreed upon, the weight equivalent to a bushel follows:—

.....	60 lbs.	Castor beans.....	40 lbs.
.....	56 "	Potatoes.....	60 "
.....	56 "	Turnips.....	60 "
.....	60 "	Carrots.....	60 "
.....	48 "	Parsnips.....	60 "
.....	36 "	Beets.....	60 "
.....	34 "	Onions†.....	50 "
.....	60 "	Bituminous coal.....	70 "
.....	56 "	Clover seed.....	60 "
.....	44 "	Timothy.....	48 "
seed.....	14 "	Buckwheat.....	48 "
.....	80 "		

In the same Act the British hundredweight of 112 pounds and the ton of 2,240 pounds were abolished, and the hundredweight was declared to be 100 pounds and the ton 2,000 pounds avoirdupois, thus assimilating the measures of Canada and the United States.

Changed from 50 to 56 lbs. by Act of Parliament, 1898. †Changed from 60 to 50 lbs. by Act of Parliament, 1898. ‡Added by Act of 1898.

Under the new regulations of the Customs Department commenced July 1, 1900, all export entries are delivered at the frontier port of exit, and the totals thereof are credited to the respective ports where the goods pass onwards from Canada. In view of the more complete returns obtained under this system, the additions heretofore made to the Export Statistics (prior to July 1, 1900) under the head of 'Short Returns,' are now omitted.

BRITISH PREFERENTIAL TARIFF, 1898.

Its chief features are (1) a completion of the pro-British tariff of 1897 provided that beginning on 1st of August, 1898, all imports from British possessions shall come into Canada on paying a duty of customs, twenty-five (25) per cent less than that levied on goods from foreign countries; (2) a provision to aid the West Indies by admitting their products at the full reduction of 25 per cent; a similar provision for any other British colony or possession the customs tariff of which is on the whole as favourable to Canada as the British preferential tariff is to such colony or possession; provided, however, (a) that unmanufactured articles admitted under such preferential tariff shall be bona fide manufactures of a country or countries entitled to the benefit of such tariff, (b) that such benefits shall not extend to the importation of articles into the production of which there has not entered a substantial portion of the labour of such countries, (3) a provision that the reduction is not to apply to wines, malt liquors, spirits, spirituous liquors, liquors, medicines and articles containing alcohol, tobacco, cigars and cigarettes.

The following parts of the British Empire are included in the British preferential tariff arrangement:—

The United Kingdom—	British West Indies— <i>Con.</i>
Bermuda.	Barbados.
British West Indies—	Trinidad and Tobago.
Bahamas.	British Guiana.
Jamaica.	British India.
Turks and Caicos Islands.	Ceylon.
Leeward Islands.	Straits Settlement.
Windward Islands.	

By the Budget of 1900 the preferential given to the above parts of the British Empire was increased from 25 p.c. to 33½ p.c. from July 1, 1900.

The figures in the preceding table must only be taken as indicative of the channels by which goods enter the Dominion, and not as by any means representing the individual consumption of each province. Quebec contains the principal ports of entry, by the St. Lawrence, and Ontario the principal ports of entry for goods from the United States; therefore, it is clear that a very large portion of the duty collected is really paid by the other provinces, and it is probable that the largest portion of the duty collected in the province of Quebec is actually paid by the province of Ontario. The same remarks are equally applicable to exports, even many products of Prince Edward Island being taken across to the mainland and thence shipped from Nova Scotia and New Brunswick ports, to which provinces they are credited as exports.

The following table shows the growth of the imports of raw material since confederation :—

* Coin and bullion only.

Note.—The Department of Customs no longer include 'short returns' in export statements. † The following articles have been taken from 'the mine' and 'the forest,' and added to 'manufactures,' viz.: Refined oil, salt, ashes, all kinds, laths, palings and pickets, shingles, shooks, box and other, staves and headings and sawn lumber of all kinds. ‡ Also included in column of 'manufactures.'

IMPORTS OF GOODS INTO CANADA ENTERED FOR CONSUMPTION. The term "Entered for Consumption" is the technical term in use at the customhouse, and does not imply that the goods have been actually consumed in Canada, but that they have passed into the possession of the importer and that duty has been paid on that portion liable for duty.

The value of goods imported is governed by Section 58 of the Customs Act, which provides that the value of imported goods subject to ad valorem duty "shall be the fair marked value thereof, when sold for home consumption, in the principal markets of the country whence and at the time when the same were exported direct to Canada."

EXPORTS. The term "The Produce of Canada" includes all imported articles which have been changed in form or enhanced in value by further manufacture in Canada, such as sugar refined in Canada from imported raw sugar, flour ground from imported wheat, and articles constructed or manufactured from imported materials.

"Goods not the produce of Canada" shows the exports of foreign goods which had been previously imported.

Under the Regulations commencing the 1st July, 1900, all *Export* entries are delivered at the "Frontier port of exit," and the totals thereof are credited to the respective ports where the goods pass outwards from Canada.

The tables of imports and exports at the several ports of entry indicate that merchandise of the value stated was entered *inwards* or *passed outwards* at the ports mentioned, but do not imply that the imports were all for consumption at such ports or that the exports originated there.

The value of "Goods the Produce of Canada" is their value at the time of exportation at the ports of Canada whence shipped.

The value of "Goods not the Produce of Canada" is the actual cost of such goods.

WOOD PULP INDUSTRY IN CANADA, 1902.

The wood pulp industry of Canada for the calendar year 1902 was carried on by 35 mills which had an output of 240,989 tons of wood pulp: this quantity, 155,210 tons were mechanical pulp, 76,735 sulphite, and 9,044 soda. The corresponding quantities for 1901 were: mechanical, 9,360 tons; sulphite, 84,500 tons, and soda, 10,740 tons. This shows a decrease of 23,611 tons in 1902. The decrease is distributed: sulphite, 7,665; soda, 1,696; mechanical, 14,150 tons.

The total value of the output of 1902 was \$4,383,182.

There are several large mills in course of construction, or which, being finished, did not operate during the year 1902.

Two or three firms have gone out of business or manufacture only paper where before they made pulp.

Nine of the thirty-five mills manufacture sulphite pulp and four soda pulp. Twenty-five manufacture mechanical pulp and four make both chemical and mechanical.

Taking the returns of thirty-two mills the average time the mills ran during the year was ten months.

The power to drive the mills is chiefly derived from water. Of a total power equal to 81,725 horse power, 78,296 is water power.

The growth of the industry is considerable. In the census of 1881 there were five establishments with an output of \$63,000. In 1891 there were twenty-four with an output of \$1,057,810. The census returns for 1901 have not yet been tabulated. For 1902 the returns to the Statistical Branch preparing the Year Book show, as given above, thirty-five establishments with an output of \$4,383,182.

Of the product of Canadian mills the Customs returns show that during the Calendar year 1902 the export amounted to \$2,511,664, leaving \$1,871,518 for home use. In a general way, therefore, we export about fifty-seven per cent. of our production.

Of the \$2,511,664 worth exported by Canada in 1902, Great Britain took \$976,192, the United States \$1,518,139, and other countries \$17,333.

The market for this product in the United Kingdom is large. In the calendar year 1902 the requirements of Great Britain were of the value of \$11,671,367, of which seven-elevenths were chemical pulp. Our export in 1902 to Great Britain was about $8\frac{1}{2}$ per cent of her needs.

* the deposits of Federal and Provincial Governments.

† amounts deposited elsewhere than in Canada, not previously included in page 322.

The amendments to the Banking Act passed in the Session of the Federal Parliament, 1900, provided, by schedule, for a fuller analysis of the Banking Statistics than there was previously supplied. The new schedules called for a further division of deposits and discounts so as to enable the public to ascertain the amounts belonging to countries outside of Canada. The first full year of the new tables closed on June 30, 1901, and the following table is the result of the 12 months average for the years 1901 and 1902.

POST OFFICE AND OTHER SAVINGS BANKS.

The Post Office Act, which provides for the establishment of Post Office Savings Banks in Canada, was passed on December 20, 1867, and was limited in operation, as regards the savings banks, to the provinces of Ontario and Quebec. Under its provisions a deposit must not be less than \$1, and by Order in Council, February 7, 1891, must not exceed \$1,000, in any one year; neither must the total amount on deposit exceed \$3,000. On September 1, 1885, the system was extended to the provinces of Nova Scotia and New Brunswick, and the offices are now distributed in the several provinces as follows :—Ontario, 508; Quebec, 157; Nova Scotia, 60; New Brunswick, 47; Manitoba, 49; British Columbia, 54; Prince Edward Island, 10; and the Territories, 30; making a total of 915.

Government savings banks, under the management of the Finance Department, have been established in the maritime provinces and in Manitoba and British Columbia. In these, deposits are allowed to the extent of \$1,000. The number of offices under this system is 23, viz.: 15 in Nova Scotia, 4 in New Brunswick, 1 in Prince Edward Island, 1 in Ontario, 1 in Manitoba, and 1 in British Columbia. On June 30, 1902, there were 49,001 depositors with \$16,117,779 on deposit. Arrangements are made for the transfer of the Government savings banks in each province to the Post Office Department, as the position of superintendent of each place becomes vacant.

of interest paid in both classes of savings banks was formerly 4 per cent, but on October 1, 1889, it was reduced to $3\frac{1}{2}$ per cent, and on January 1, 1897, it was reduced to 3 per cent.

The Office system went into operation on April 1, 1868, when 81 offices were opened. At the close of the three months ended June 30, 1868, there were 2,102 depositors, 3,247 deposits had been made, and the amount on deposit was \$204,589. On June 30, 1902, there were 915 offices opened, 10,336 depositors, and the total amount on deposit was \$42,320,209.

In addition to the above there are special savings banks, chiefly the Caisse d'Épargne of Quebec and Montreal City and District Savings Banks. The banks also have savings branches, but the amounts on deposit in these branches are not separated from the general business and other branches, and the returns to the Government.

The following table gives the deposits with the Government in the two classes under Government control and the deposits in the special savings banks. It does not include deposits in the chartered banks and in the loan and building societies:—

RAILWAYS AND CANALS.

There were 18,714 miles of railway in operation in the whole Dominion on the 30th June, 1902, and 18,868 miles of track laid.

The distribution by provinces is as follows :—

MILEAGE OF TRACK LAID AND SQUARE MILES OF AREA TO EACH MILE OF RAILWAY.

Provinces.	MILES OF TRACK LAID.		Square miles of area to each mile of track in 1902.
	1867.	1902.	
Ontario	1,275	7,139	30.66
Quebec	523	3,445	29.30
New Brunswick.....	196	1,444	19.33
Nova Scotia.....	93	1,051	20.04

Manitoba		2,128	36.55
North-west Territories and Yukon Territory.		2,080	362.47
British Columbia		1,372	269.62
Total	2,087	18,868	

In addition to the above there are 130.71 miles of railway owned by seven coal and iron companies, six of which are in Nova Scotia and one in British Columbia. This mileage is all of the 4 ft. 8½ in. gauge, with exception of three miles with a 3 ft. gauge.

Taken according to population :—

Ontario	population, 40.16 per cent ; railway miles, 37.84 per cent.
Quebec	" 30.60 " " 18.26 "
Nova Scotia	" 8.44 " " 5.57 "
New Brunswick	" 6.09 " " 7.65 "
P. E. Island	" 1.88 " " 1.11 "
Manitoba	" 5.01 " " 11.28 "
N. W. Territories	" 4.29 " " 11.02 "
British Columbia	" 3.53 " " 7.27 "

Canada has 165 steam railways. Twenty-five of these have been amalgamated and form the Grand Trunk railway system. The consolidation of others has produced the Canadian Pacific railway system. The remainder 113 have more or less consolidated. Three of these are bridge companies with 4½ miles of rails, and one is a tunnel, with 2½ miles of rails.

The mileage (rails laid) of these several organizations is :—

Canadian Pacific	7,319.00
Grand Trunk	3,157.48
Intercolonial, Prince Edward Island and Drummond Co.	1,510.94
Other railways	6,873.45
Bridges and tunnel	6.96
Total	18,867.83

The number of miles laid with steel rails was 18,761, of which 647 was double track.

For the past few years some electric railways have been included with the steam. They have been eliminated and their statistics will be found on last page of chapter on railways.

ing is a statement of the gauge and length of steam railways in Canada in 1902.

of Quebec for the railway between Ottawa and Quebec, which has been
added to the public debt, and on which interest at 5 per cent is paid,
amounting to \$119,700 a year.

Way aid has consisted: (1) of money grants (a) by the Federal Par-
liament, (b) by the Provincial Legislatures, (c) by the municipalities; (2)
(3) Government guaranties of interest; (4) Government issue of
bonds by way of loan to railway companies; (5) Government guaranty
of railway bonds; (6) direct issue of Government bonds to railways with a
mortgage on the companies' properties; (7) Imperial Government
issue of capital; (8) share capital locally distributed; (9) land grants;
(10) lease of Government loans by placing them behind other loans; (11)
assumption of Government claims; (12) assumption by Government of
liabilities; (13) direct construction by Government; (14) combined land
and money grants.

The table following gives particulars of the assistance afforded by means
of grants.

The sum of \$500,000 granted by the Act 50-51 Vic., ch. 25 (1887) to the Western
Railway Company, in settlement of matters in dispute with the Government,
the construction of a link of railway between Annapolis and Digby, has, in previous
years been included in this statement as a subsidy; it is now omitted, as under authority
of Act 52 Vic., ch. 8 (1889) the Government itself constructed the said link, which was
then handed over to the Company in 1891. The cost was charged against 'Capital.'

Another way in which railways have been aided is by loaning them used rails. Outstanding loans of this kind on June 30, 1902, were: Kent Northern Railway of New Brunswick, \$58,334; Halifax Cotton Company, siding, \$4,335; Steel Company of Canada, \$11,965; Albert Railway Company, \$14,665—in all \$89,299.

GOVERNMENT RAILWAYS.

The railways belonging to the Government of Canada are known as the Canadian Government Railway System. They include, 1st, the Intercolonial and its branches; 2nd, the Prince Edward Island Railway.

The total mileage of the Intercolonial system on June 30, 1902, was 1,333 miles of operated road, including the Windsor Branch (32 miles) and the Drummond County Railway (170 miles).

The Intercolonial touches six Atlantic points, viz: Pointe du Chêne, Pictou, St. John, Halifax, Sydney and North Sydney.

the fiscal year 1891, by special Act 54 Vic., chap. 50, the Eastern Railway was embodied in the Intercolonial system.

Windsor Branch is owned and maintained by the Government, but is worked by the Windsor and Annapolis Railway, who pay one-third of the earnings to the Government. The Government's share is generally sufficient to cover the cost of maintenance, and during 1902 amounted to \$33,228. The road runs from Windsor to Windsor a distance of 32 miles.

The following table gives the receipts and expenditure of the Windsor Branch Railway from 1881 to 1902.

Canadian vessels not distinguished.

coasting trade of Canada is regulated by the Act, Chap. 83, Revised Statutes of Canada, which provides that no goods or passengers can be transported by water from one port in Canada to another except in British ships. Provision, however, may be declared by the Governor General in Council that it not to be applicable to the vessels of any country that allows such vessels to participate in its coasting trade on the same footing as its national vessels. By different Orders in Council the ships of the following countries have been admitted to the coasting trade of Canada, viz., Germany, the Netherlands, Sweden and Norway, Austria-Hungary, Denmark, Belgium and the Argentine Republic.

An arrangement was concluded on April 1, 1901, between Canada and the United States of North America, under which all postal money sent from Canada to the United States goes at the domestic rate of three-tenths of one per cent instead of the international rate of one per cent as previous to the 1st.

The rates charged in Canada are now as follows, viz:—

On orders up to \$5.00		Rate
Over \$5.00	10.00	3 cents

POSTAL NOTE SYSTEM.

The Postal Note system was inaugurated throughout Canada on August 1, 1898. These notes offer a cheap and convenient means of transmitting small sums of money through the mails. Their use is confined to the Dominion.

The denominations of Postal Notes are seventeen in number. The following table gives the different amounts and the commission charged thereon:—

A cents may be made up by affixing Canadian postage stamps, not being nine cents in value, to the face of a Postal Note. For example, 45 cents may be transmitted by means of a note for 50 cents and 5 cents in stamps—55 cents will be paid on presentation of the note.

Number and value of paid Postal Notes and the revenue derived from their presentation on the same during the years ended June 30, 1901 and 1902.

COAL.

The coal areas of Canada are estimated at 97,200 square miles, not including areas known, but as yet undeveloped, in the far north.

There are 1st, the coal fields of Nova Scotia and New Brunswick; 2nd, those of the North-west Territories; 3rd, those of the Rocky Mountains; and 4th, those of British Columbia. The coal areas of Nova Scotia cover about 635 square miles. They are divided into the Cape Breton, the Pictou and the Cumberland basins. New Brunswick contains, so far as known, no seams of sufficient magnitude to be worked successfully in competition with the Cumberland mines.

The workable thickness of the coal is very great, in Cape Breton a total of 25 to 60 feet, in Pictou at least 70 feet, and in Cumberland at least 80 feet. If the workable area is reduced one-quarter, say from 407,400 acres to 300,000 acres, and the average thickness of the workable area put at 25 feet, on the basis of 1,000 tons of coal an acre for every foot of coal, the amount of coal in the measures of Nova Scotia is 7,000,000,000 tons.

The following average analysis from a paper on Canadian Coals read at the Montreal meeting of the British Association will give a fair idea of the coals from the districts :—

	Cape Breton.	Pictou.	Cumberland.
Water.....	9.75	1.19	1.80
Volatile combustible.....	37.26	29.10	33.00
Fixed carbon.....	58.74	60.63	59.20
Ash.....	3.25	9.34	5.00

There are no coal measures from New Brunswick westward until the base of Manitoba is reached. The coal areas of Manitoba are roughly estimated at 15,000 square miles. They yield lignites only, and of a very poor quality. Analysis gives the following result:—

Water.....	15.40
Volatile combustible.....	37.97
Fixed carbon.....	41.21
Ash.....	5.36

Analyses of the coal found in the area (50,000 square miles) extending to the base of the Rocky Mountains, from the international boundary to the vicinity of the Peace River—a distance of 500 miles—gives the following results:—

	Belly River.	Bow River.	Peace River.
Water.....	6.52	12.37	2.10
Volatile combustible.....	31.03	32.33	21.54
Fixed carbon.....	56.54	46.39	71.63
Ash.....	5.91	8.91	4.73

The third coal area is that in the Rocky Mountains. Though small, as measured by miles, it contains much coal of the best quality. The small area of the Crow's Nest Pass is very rich. Several seams of anthracite of excellent quality have been found. Those in the Cascades Basin have an area of sixty square miles.

The fourth area is that of the Pacific coast. Dr. George M. Dawson gives the following estimate of its extent:—

	Square Miles.
Nanaimo coal basin (coals), approximately correct.....	200
Comox coal basin (coals), rough approximation.....	700
Queen Charlotte's Island, very rough approximation.....	800
Tertiary lignite-bearing rocks in different parts of British Columbia south of the 54th parallel of latitude (very rough approximation)	12,000

The character of the coal is evidenced by the following analysis:—

	Slow Coking.	Fast Coking
Water.....	1.47	1.47
Volatile combustible.....	28.19	32.69
Fixed carbon.....	64.05	59.55
Ash.....	6.29	6.29

Anthracite in 3-feet and 6-feet seams, comparing favourably with that from Pennsylvania, has been found in Queen Charlotte's Island.

Samples analysed give the following results :—

	Sample 1.	Sample 2.
Water.....	1.60	7.89
Volatile combustible.....	5.02	4.77
Fixed carbon.....	83.09	85.76
Ash.....	8.76	6.69
Sulphur.....	1.53	0.89

IRON

The iron ores of the Dominion have a wide range, both geographically and geologically. From Vancouver Island in the west to Cape Breton in the east they occur at varied intervals. Sir William Fairbairn, 'Iron, its History, Properties, and Processes of Manufacture,' says: 'The Mineral and Geological Department of the Exhibition of 1862 were sent striking specimens of iron ore from the colonies, among which the remarkable collection from Canada, consisting of oxide, red hematite and bog ores. The thickness of some of the beds from which the specimens were taken is worthy of notice. In Nova Scotia some of the best ores yet discovered occur in boundless abundance. The iron manufactured from them is of the very best quality, and is equal to the finest English metal.' In the same province the iron ore, the coal and the flux are in close contiguity to each other, and are within a comparatively short distance from fine ship harbours, making that province one of the best in the world for the seat of iron and steel ship-building on a large scale. Magnetic ores occur abundantly throughout several counties of Ontario. An important deposit in the township of South Crosby has been worked many years. A very fine and valuable ore exists as a large deposit in North Crosby. The contiguous townships of Madoc, Marmora, Belmont and Fenelon contain several beds of magnetic iron ore. In the region west of Lake Superior, the province of Ontario has a country rich in iron ore. In the province of Quebec there are large and valuable deposits of magnetic iron. In the county of Beauce a bed of granular iron ore, about two-thirds hematite with a vein of 45 feet wide, occurs in serpentine.

Hematite iron ores are found in all parts of Canada. One of the most valuable deposits of Quebec province is near Hull—opposite Ottawa—a granular ore, assaying from 64 to 68 per cent of metallic iron. In New Brunswick large deposits of hematite ore are found near Woodstock. Magnetite and bog ores are widely distributed.

Chromic iron.—During the year 1895 large deposits of chromic iron were found in Coleraine, province of Quebec. The ore averaged over 50 per cent of chromic metal, is easily mined, and finds a ready market in the United States.

The Dominion Parliament in 1883, authorized the payment of a bounty of \$1.50 a ton upon all pig-iron manufactured in Canada. This bounty was continued until 1st July, 1899, when the rate was made \$1 a ton. A further change was made on 1st July, 1892, when the rate was increased to \$2 a ton until 1st July, 1897.

In the session of 1894 an Act was passed providing that the Governor in Council may authorize the payment of a bounty of \$2 per ton on all pig-iron made in Canada from Canadian ore, or a bounty of \$2 per ton on all rolled bars made in Canada from Canadian pig-iron made from Canadian ore, and a bounty of \$2 per ton on all steel billets manufactured in Canada from Canadian pig-iron and such other ingredients as are necessary and proper in the manufacture of steel billets. These bounties were applicable from

March 26, 1899, in the case of furnaces in operation on March 27, 1899, and in the case of furnaces commencing operations subsequent to that date, but before March 27, 1899, for five years from the date of commencing. This Act was repealed by Chap. 6 of the Acts of 1897, which authorized the Governor General to give (1) a bounty of \$3 per ton on steel ingots

manufactured from ingredients of which not less than 50 per cent of the weight consists of pig-iron made in Canada, (2) a bounty of \$3 per ton of puddled iron bars made from Canadian-made pig-iron, (3) a bounty on iron manufactured from ore, of \$3 per ton on the proportion produced from Canadian ore and \$2 on the proportion produced from foreign ore.

An Act of 1898 provides that the provisions of the Act are to be held to have come into force on April 23, 1897. An Act of 1899 provides that these bounties shall continue to be paid to 30th June, 1907, at a diminishing rate from 1902: 90 per cent of the bounties to be paid in 1902-3; 75 per cent in 1903-4; 55 per cent in 1904-5; 35 per cent in 1905-6, and 20 per cent in 1906-7.

The Legislature of Ontario passed an Act in the session of 1894 appropriating the sum of \$125,000 to be known as the Iron Mining Fund. The object of this fund the treasurer is authorized to pay \$1 per ton of pig-metal produced of iron ores raised or mined and smelted in the province of Ontario, the amount so paid not to exceed in any one year, \$25,000. Under this Act the sum of \$84,741 has been earned, to 31st December, 1902.

The annual consumption of iron and steel and their products in Canada is between 800,000 tons and 820,000 tons.

The active works in Canada in 1902, are (1) The Nova Scotia Steel and Iron Company blast furnace at Ferrona, Nova Scotia; (2) The Hamilton Steel and Iron Company, Hamilton; (3) The Canada Iron Furnace Company, Radnor; (4) The Dominion Iron and Steel Company furnaces at Sault Ste. Marie; (5) The Canada Iron Furnace Company, Radnor; (6) Deseronto Company, Deseronto; (7) The Drummondville Furnaces; the last three are charcoal furnaces. The annual aggregate capacity of all the completed and unfinished furnaces is nearly 1,100,000 gross tons. The Lake Superior Power Co. are building at Sault Ste. Marie, Ont., a very extensive plant for the manufacture of pig-iron, steel and steel rails, the latter the first established in Canada.

The united investment at Sydney, Hamilton, Deseronto, Midland, Glasgow, Radnor, Drummondville and Ferrona amounts to \$24,500,000 which will be increased to \$35,000,000, by new plant now building. Within five or six years the total investment will aggregate, approximately \$50,000,000.

The production of pig-iron in the Dominion of Canada, as ascertained from the manufacturers by circular, amounted in the calendar year 1902 to 326,962 gross tons, as compared with 244,976 tons in 1901; 86,900 tons in 1900; 94,077 tons in 1899 and 68,755 tons in 1898; 53,796 tons in 1897; 60,030 tons in 1896 and 37,829 tons in 1895. Of the production last year 310,118 tons were made with coke and 16,844 tons with charcoal. The production of Bessemer pig iron, included above amounted to 14,753 tons. Neither spiegal nor ferromanganese was made. One Company produced 18,921 net tons of steel ingots by the Open Hearth Process.

On Dec. 31, 1902, the unsold stocks of pig-iron in Canada amounted to 20,328½ gross tons, as compared with 59,472 tons at the close of 1901. Of the unsold iron on hand on December 31, 1902, 19,641 tons were cold-chamber iron and 687½ tons were charcoal pig iron. On December 31, 1902, there were 12 completed furnaces in Canada and four furnaces were in course of construction. Of the completed furnaces seven were in blast and five were on the date named. During 1902, two furnaces were erected by

steel Company at Sault Ste. Marie, Ontario, and two at New Glasgow, Scotia. Of the 12 completed furnaces, seven were equipped to use fuel, three charcoal, and two charcoal and coke.

Following table gives, 1st, the production in Canada of pig-iron; 2nd, the consumption of pig-iron, iron kentledge and cast scrap-iron for home use—the two columns making up the total consumption; and 3rd, the quantity of home manufactured pig to the total consumption:—

ended June 30.	PRODUCTION OF PIG IRON*		Imports.	Total Consumption.	Per cent of Home produce to total consumption.

A comparison of the mineral production of the British Empire and of the rest of the world in 1900, is given below. It will be seen that the British Empire provides twenty-eight per cent of the first eight articles, forty-eight per cent of the gold and ten per cent of the silver.

In 1902 the quantity of copper exported to the United States was 13,812 valued at \$2,649,650. The remainder went to Great Britain.

NICKEL.

In 1883 the first discovery of a deposit of nickeliferous pyrrhotite was while the Canadian Pacific Railway Company was making a cutting through a small hill near Sudbury, in the District of Algoma, Ontario. The ore, which contains on the average about 2.25 per cent of nickel, is mined and smelted into a copper-nickel matte, the usual composition of which, from average analysis, is about as follows:—Copper, 26.91; nickel, 1.95; iron, 31.335; sulphur, 26.95; and cobalt, .935. The matte is also found to contain some ounces of platinum to the ton. The amount of fine nickel in the matte produced at the Sudbury mines in 1889–1902 is given below.

The United States took all our exports of nickel during the year to 1901. In 1902 Great Britain took 438,638 pounds, valued at \$89, balance going to United States.

PETROLEUM.

Petroleum has been found in Quebec, Nova Scotia and New Br and particularly in the North-west Territories, where it seems certain an immense unexplored oil region, but it is in the county of I Ontario, whence most of the oil has been and is obtained, Oil Springs Petrolea being the largest oil-producing districts. The oil is obtained at a depth of from 370 to 500 feet.

The following table contains the only trustworthy statistics of Canadian production of oil that are available, and these figures do not give the total production, since the quantity of crude oil, used as such, is not included.

From April 7. †To April 1, 1871.

Of the quantity of dutiable salt imported into Canada in 1902, 6,778 came from the United States.

An Act was passed by the Parliament of Canada, in the Session of 1895, providing for a bounty to encourage silver smelting and the smelting of ores of silver and gold. By that Act the bounty was not to exceed 50 cents a ton, nor to be more than \$150,000 in all. No more than \$30,000 any one year was to be paid, and if the quantity of ore smelted was more than would allow of 50 cents per ton, the bounty would be reduced proportionately.

The expenditure under the Act, between the years 1896-1900, was \$10,000, all paid as bounty excepting \$285, expenses of administering the Act. The particulars are:—

ASBESTUS.

The following table, made up from returns furnished by the producers, gives the quantity and value of shipments from 1879 to 1887, after which the amount of production is given. It is believed, however, that, in some of the earlier years, the output was sometimes given instead of the quantity shipped, and according to returns of shipments made by the Quebec and Montreal Railway, the aggregate quantity is too high.

AN ACT TO PROVIDE FOR THE PAYMENT OF BOUNTIES
ON LEAD REFINED IN CANADA.

In order to encourage the refining of lead in Canada, the Parliament of Canada enacts as follows:—

1. The Governor in Council may authorize the payment of the undermentioned bounties on lead refined in Canada from materials produced in Canadian smelters from Canadian ore:—

(a.) On every ton of lead so refined during the fiscal year beginning the 1st day of July, 1902, \$5.00.

(b.) On every ton of lead so refined during the fiscal year beginning the 1st day of July, 1903, \$4.00.

(c.) On every ton of lead so refined during the fiscal year beginning the 1st day of July, 1904, \$3.00.

(d.) On every ton of lead so refined during the fiscal year beginning the 1st day of July, 1905, \$2.00.

(e.) On every ton of lead so refined during the fiscal year beginning the 1st day of July, 1906, \$1.00.

2. The said bounties shall be payable half-yearly on the first day of January and the first day of July in each year.

3. The total sum payable for such bounties shall not exceed \$100,000 any year. If the sum payable at the rate per ton mentioned in section of this Act on lead refined during the half of any fiscal year exceeds \$50, then the bounty payable per ton shall be reduced as regards that half to such a rate per ton as will make the bounties payable in respect of half year not more than \$50,000.

4. If the sum paid for such bounties in any half-year is less than \$50,000, the unpaid balance (that is to say the difference between the sum

and \$50,000) shall be carried to the credit of the bounty fund for the next succeeding half-year and may be paid out in such succeeding half-year in addition to the \$50,000 herinbefore provided.

5. The Governor in Council may make such rules and regulations, including regulations as to rates and charges for refining, as are deemed expedient in the public interest for carrying out the purposes of this Act, and all payments of bounty shall be subject to the due observance of such rules and regulations.

6. All bounties payable under this Act shall cease and determine on the 13th June, 1907.

7. The expression 'ton' in this Act means 2,000 pounds

BRIEF RESUME OF THE MINING LAWS OF THE DOMINION OF CANADA AND OF THE SEVERAL PROVINCES.

NOVA SCOTIA.

In Nova Scotia the province reserves all its minerals and ores (excepting limestone, plaster and building material) and leases the land under rent and royalty for revenue purposes. The gold and silver leases are for terms of 40 years. Other minerals are leased for 80 years in four renewable terms of 20 years each.

The gold and silver areas are 250 by 150 feet, laid off with the shorter side running east and west. Any number of these areas up to 100 in one application can be secured under a license to prospect for 12 months on payment of 50 cents an area. During this period any number of the areas can be taken under lease, or the areas can be directly applied for under lease. The price of an area under lease is \$2, and thereafter an annual rental of 50 cents per area secures it from forfeiture for non-working. If an amount of work equivalent to 40 days per annum per area is performed on the lease, the rental for that year is refunded. A royalty is payable on all gold at the rate of 2 per cent, the gold being valued at \$19 an ounce smelted, and \$18 an ounce unsmelted, and at the rate of 2 per cent on the silver valued at \$1 per ounce.

In the case of the other minerals the payment of \$30 secures a license to search for 18 months over a tract of land $\frac{1}{2}$ square miles in extent, and not exceeding $2\frac{1}{2}$ miles in length.

All ores and minerals, other than gold or gold and silver, mined are subject to the following royalties:—

Coal.—10 cents per ton of 2,240 pounds of coal sold or removed from the mine or used in the manufacture of coke—royalty not demanded on coal used by the workmen or in any mining operations in and around the mine.

Copper.—4 cents upon every unit, i.e., upon every one per cent of copper contained in each and every ton of 2,352 pounds of copper ore sold or smelted.

Lead.—2 cents upon every unit.

Iron.—5 cents on every ton of 2,240 pounds of ore sold or smelted.

Tin and precious stones and any other minerals that may be reserved, 5 Per cent on their values.

The Governor in Council has power to lower the rates of royalty stated on iron, copper, lead, tin and precious stones, on being satisfied that the owners of such leased minerals have commenced effective mining operations. The leases of coal mines contain a proviso that royalties may be increased, diminished or otherwise changed by the legislature.

QUEBEC.

The mining laws of the province of Quebec provide that mines are property separate from the soil covering mines and minerals; the proprietor of the surface has purchased from the Crown, as a concession or otherwise, the underground properties.

Mining concessions are divided into three classes :

1. In unsurveyed territory (a) the first class contains 400 acres, second, 200 acres, and (c) the third, 100 acres.
2. In surveyed townships the three classes respectively comprise one, two and four lots.

All lands supposed to contain mines or ores belonging to the Crown may be acquired from the Minister of Lands, Mines and Fisheries (a) as a concession by purchase, or (b) be occupied and worked under license.

No sale of mining concessions containing more than 400 acres of land can be made by the commissioner to the same person. The Governor in Council may, however, grant a larger extent of territory up to 1,000 acres under special circumstances. When it concerns inferior metals, the number of mining concessions which may be granted to the same person is limited by the Lieutenant-Governor in Council. 2 Ed. VII., c. 15.

The rates charged and to be paid in full at the time of the purchase are \$5 and \$10 per acre for mining lands containing the superior metals, the first-named price being for lands situated more than twelve miles from the nearest railway; for lands situated less than twelve miles from the railway the price shall be fixed by the Lieutenant-Governor in Council. 2 Ed. VII., c. 15.

If for the mining of inferior metals, the price shall be fixed by the Lieutenant-Governor in Council. 2 Ed. VII., c. 15.

Unless stipulated to the contrary in the letters patent in connection with the mining of superior metals, the purchaser has the right to mine the metals found therein; in concessions for the mining of the inferior metals, only those only may be mined for.

Mining lands are sold on the express condition that the purchaser shall commence bona fide mining within two years from the date of purchase and shall not spend less than \$500, if mining for the superior metals, or not less than \$200 if for inferior metals. In default, cancellation of the mining land.

Licenses may be obtained from the commissioner on the following conditions: Application for an exploration and prospecting license, if the land is private land, \$2 for every 100 acres or fraction of 100; if the land is Crown land (1) in surveyed territory, \$5 for every 100 acres, (2) in unsurveyed territory, \$5 for each square mile, the license to be valid for three months and renewable. The holder of such license may purchase the mine, paying the price mentioned.

The superior metals include the ores of gold, silver, lead, copper, zinc, iron, mica and phosphate of lime. The words "inferior metals" include all other metals and ores.

Licenses for mining are of two kinds. Private lands' licenses, where the mining rights belong to the Crown, and public lands' licenses. These licenses are granted on payments of a fee of \$5, and an annual rental of \$1 per acre. Each license is granted for 200 acres or less, but not for more; valid for one year and is renewable on the same terms as those on which it was originally granted. The Governor in Council may at any time require the payment of the royalty in lieu of fees for a mining license and annual rental—such royalties, unless otherwise determined by letters patent or other title from the Crown, being fixed at a rate not to exceed ten per cent of the value at the mine of the mineral extracted, after deducting the cost of mining it.

According to the law of 1892 the proprietor of a lot for agricultural purposes was entitled to a right of preference to the mines on said lot, but according to amendments made by (1 Ed. VII., c. 13) the first applicant to the mines has the first right on all lands which may have been sold since 1900.

Prior to 1880 the proprietor of a lot is also proprietor of the mines, with exception of gold and silver mines, which are always reserved in favour of the Crown.

BRITISH COLUMBIA.

Free Miners' Certificates.

Any person over the age of 18, and any joint stock company, may obtain a free miner's certificate on payment of the required fee.

The fee to an individual for a free miner's certificate is \$5 for one year.

A joint stock company having a capital of \$100,000, or less, the fee for one year is \$50; if capitalized beyond this, \$100.

All these certificates expire at midnight on May 31 in each year. Certificates may be obtained for any part of a year, terminating on May 31, at a proportionately less fee.

The possession of this certificate entitles the holder to enter on all unoccupied lands of the Crown, or on other lands on which the right to so enter is not reserved, and prospect for minerals, locate claims and mine.

A free miner can only hold, by location, one mineral claim on the same vein or lode, but may acquire others by purchase. In the case of placer mines only one can be held by location on each creek, ravine, or hill, and no more than two in the same locality, only one of which shall be a 'creek' claim.

In the event of a free miner allowing his certificate to lapse his mining property (if not Crown-granted) reverts to the Crown, but where other free miners are interested as partners or co-owners the interest of the defaulter becomes vested in the company continuing co-owners or partners, pro rata, according to their interests.

It is not necessary for a shareholder, as such, in an incorporated mining company, to be the holder of a certificate.

Mineral Claims.

Mineral claims are located and held under the provisions of the 'Mineral Act.'

A mineral claim is a rectangular piece of ground not exceeding 100 square. The angles must all be right angles unless the boundaries of them, are the same as those of a previously surveyed claim.

A mineral claim is located by erecting three legal posts, which are having a height of not less than four feet above ground and square four inches at least on each face for not less than a foot from the tree stump so cut and squared also constitutes a legal post.

The 'discovery post' is placed at the point where mineral is first discovered.

Nos. 1 and 2 posts are placed as near as possible on the line of the ore vein, shown by the discovery post, and mark the boundaries of the claim. Upon each of these three posts must be written the name of the claim, the name of the locator and the date of location. On No. 1 post, in addition the following must be written:—'Initial post. Direction of post 1 (giving approximate compass bearing); — feet of this claim line to right, and — feet on the left of the line from No. 1 to No. 2 post.'

The location line, between Nos. 1 and 2 posts, must be distinctly marked—in a timbered locality by blazing trees and cutting underbrush, in bare country by monuments of earth or rock not less than two feet in diameter at the base, and at least two feet high—so that the line is distinctly seen.

Mineral claims must be recorded in the Mining Recorder's Office in the mining division in which they are situated within fifteen days from date of location, one day extra being allowed for each ten miles of distance from the recording office after the first ten miles. If a claim is not recorded in time it is deemed abandoned and open for re-location, but if the locator wishes to re-locate he can only do so by permission of the Commissioner of the district and upon payment of a fee of \$10. This applies also to a claim abandoned for any reason whatever.

Mineral claims are, until the Crown grant is issued, held practically on yearly lease, the condition of which is that assessment work be performed on the same during each year to the value of at least \$100, or payment of such sum be made to the Mining Recorder. Such assessments must be recorded before the expiration of the year or the claim is deemed abandoned. If, however, such record is omitted, a free miner may, before the expiration of thirty days thereafter, record such assessment upon payment of a fee of \$10. This, however, will not hold the claim if it has been re-located by another free miner in the meantime. The actual cost of the survey and assessment work, to an amount not exceeding \$100, may also be recorded. If, during any year, work is done to a greater value than the required \$100, any further sums of \$100—but not less—may be recorded and counted as further assessments. As soon as assessments to the extent of \$500 is recorded, the owner of a mineral claim is entitled to a Crown grant on payment of a fee of \$25, and giving the notices required by the Act. Liberal provisions are also made in the Act for obtaining mill sites and other facilities in the way of tunnels and shafts for the better working of claims.

Placer Claims.

Placer mining is governed by the 'Placer Mining Act,' and by the definition clause its scope is defined as 'the mining of any natural deposit of minerals in or upon the surface of the land.'

earth, gravel or cement mined for gold or other precious minerals

Placer claims are of four classes, as follows:—

“*Stream diggings* :” any mine in the bed of any stream or ravine :

“*Bar diggings* :” any mine between high and low water marks on a river, over the large body of water :

“*Gravel diggings* :” any mine over which water never extends :

“*Precious stone diggings* :” any deposit of precious stones, whether in gravel, sand, or gravel deposits.

Following provisions as to extent of the various classes of claims are contained in the Act:—

“*Stream diggings*” a claim shall be 250 feet square : Provided always that the side lines of each claim shall be measured in the general direction of the stream or stream :

“*Bar diggings*” a claim shall be:—

A piece of land not exceeding 250 feet square on any bar which is exposed at high water, or

A strip of land 250 feet long at high water mark in the width of the bar from high water mark to extreme low water mark :

“*Gravel diggings*” a claim shall be 250 feet square.

Every placer claim shall be as nearly as possible rectangular in form, and shall be marked by four legal posts at the corners thereof, firmly fixed in the ground. On each of such posts shall be written the name of the locator, the number of the certificate of issue of his free miner's certificate, the date of the location and the name given to the claim. In timbered localities all boundary lines of a claim shall be blazed so that the posts can be distinctly seen, understood, and the locator shall also erect legal posts not more than 125 feet apart on all boundary lines. In localities where there is no timber or suitable monuments of earth or rock, not less than two feet high and six inches in diameter at base, may be erected in lieu of the said last mentioned posts, but not in the case of the four legal posts marking the corners of the claim.

Every claim must be recorded in the office of the Mining Recorder for the Mining Division within which the same is situate, within fifteen days of the date of location thereof, if located within ten miles of the office of the Mining Recorder by the most direct means of travel. One additional day shall be allowed for every ten miles additional or fraction thereof. The fifteen days shall be counted inclusive of the day upon which such application was made, but exclusive of the day of application for record. The locator for such record shall be under oath and in the form set out in Schedule 1 to this Act. A claim which shall not have been recorded within the prescribed period shall be deemed to have been abandoned.

And if a placer claim for more than one year it must be re-recorded before the expiration of the record or re-record.

Every claim must be worked by the owner or someone on his behalf, personally, as far as practicable, during working hours. If work is discontinued for a period of 72 hours, except during the close season, lay over, absence, sickness, or for some other reason to the satisfaction of the Gold Commissioner, the claim is deemed abandoned.

Claims are declared by the Gold Commissioner upon proof being given that the supply of water is insufficient to work the claim. Under special circumstances he has also the power to declare a close season, by a

notice in writing and published in the *Gazette*, for all or any claims in the district. Tunnel and drain licenses are also granted by him on the applicant giving security for any damage that may arise. Grants of way for the construction of tunnels or drains across other claims are granted on payment of a fee of \$25, the owner of the claim crossed by the right for tolls, &c., on the tunnel or drain which may be constructed. These tolls, however, are, so far as the amount goes, under the discretion of the Gold Commissioner.

Placer Discovery Claims.

The following provision is made for new discoveries of placer ground:—

'If any free miner, or party of free miners, discover a new locality for the prosecution of placer mining and such discovery be established to the satisfaction of the Gold Commissioner, placer claims of the following kind shall be allowed to such discoverers, viz.:—

- 'To one discoverer, one claim..... 600 feet in length
- 'To a party of two discoverers, two claims, amounting together to..... 1,000

'And to each member of a party beyond two in number, a claim of ordinary size only:

'Provided that where a discovery claim has been established in a locality no further discovery shall be allowed within five miles thereof measured along the watercourses. The width of such claims shall be the same as ordinary placer claims of the same class.'

No special privileges are allowed for discovery of new mineral claims.

CO-OWNERS AND PARTNERSHIPS.

In both the 'Mineral' and 'Placer Mining' Acts provision is made for the formation of mining partnerships, both of a general and limited liability character. These are extensively taken advantage of and have proved very satisfactory in their working. By an amendment to the 'Mineral' Act passed last session, provision is made for collection of the property tax assessment that may be due from any co-owner in a mineral claim should not be forgotten that if any co-owner permits his free miner's license to lapse, the title of his associates is not prejudiced, but his interest reverts to the remaining co-owners, pro rata, according to their former interests.

HYDRAULIC AND DREDGING LEASES.

Leases of unoccupied Crown lands may be granted by the Lieutenant Governor in Council, upon recommendation of the Gold Commissioner for the district, after location by placing a legal post at each corner of the ground applied for. On the post nearest the placer ground then worked the locator must post a notice stating the name of the applicant, the location of the ground to be acquired, the quantity of ground applied for, and the term for which the lease is to be applied for. Within thirty days after the application must be made in writing to the Gold Commissioner, in duplicate, containing a plan of the ground on the back, and the application must contain the name of each applicant, the number of each applicant's free miner's

the locality of the ground, the quantity of ground, the term of the lease desired and the rent proposed to be paid. A sum of \$20 must accompany the application, which is returned if the application is not granted. The term of leases must not exceed 20 years. The extent of ground covered by leases are not in excess of the following:—Creek—half a mile; hydraulic diggings—80 acres; for dredging leases—5 miles; precious stone diggings—10 acres. Under Order in Council the minimum rental for a creek lease is \$75 per annum, and for a hydraulic lease, \$50 per annum, with a provision that at least \$1,000 per annum shall be spent in development.

For dredging leases the usual rental is \$50 per mile per annum, development work worth \$1,000 per mile per annum must be done, and 50 cents royalty per ounce paid on the gold mined.

TAXATION OF MINES.

Mineral claims, when Crown-granted, are subject to a yearly tax of 25 cents per acre, but if \$200 is spent in work in a year this tax is not levied. A tax of 2 per cent is levied quarterly on all ores and other mineral substances mined in the province, but where ore-producing mines produce under \$200 in a year half the tax is refunded, while placer or dredging mines that do not produce a gross value of \$2,000 in a year are entitled to a refund of the whole tax. These taxes are in substitution for all taxes on the land and for the personal property tax in respect of sums so produced, so long as the land is only used for mining purposes. By the 'Land Act' a duty of 50 cents per M., board measure, is levied on timber suitable for mining props, a cord of props being considered as 1,000 feet board measure.

COAL AND PETROLEUM PROSPECTING.

Coal or petroleum prospecting licenses may be procured after a thirty days' notice has been placed on the land and in the Government office of the district, as well as published in the *Gazette* and in a local paper for the same length of time. Application must be made in writing to the Gold Commissioner, in duplicate, accompanied by plans of the land and a fee of \$10. A license may be issued for not more than 640 acres of land for one year, the said \$50 covering the first year's rental. All lands must be in a square block and run due north, south, east and west. At the expiration of the first year an extension may be granted for a second and third year, and for which a license has been granted may be leased, upon proof being given of the discovery of coal, for five years at a rental of 10 cents per acre per annum; the lease also contains provision for a royalty of 5 cents per ton of coal and 1 cent per barrel of petroleum. If the lessee is able to prove that he has worked the land continuously, he may, within three months of the expiration of his lease, purchase the land at \$5 per acre.

MINING RECORDERS IN OUTLYING DISTRICTS.

Where mineral is discovered in a part of the province remote from Mining Recorders' offices, so that the provisions of the Act cannot be justly obeyed, the miners themselves may, by a two-thirds vote at a meeting for that purpose, appoint a Mining Recorder from among themselves. Such order can issue free miner's certificates, records of mining property, &c.,

and such entries will be valid notwithstanding any informality. Under the Mining Act such Mining Recorder shall, as soon as possible, forward a list of free miner's certificates issued by him, and of records made, to the Gold Commissioner, or Mining Recorder, together with the fees required by law therefor.

ONTARIO.

The Mines Act of Ontario provides for the abolition of all royalties imposed upon ores or minerals within the province. Reservations of silver and other mines contained in any patent are made also void, and such mines in and upon such lands are deemed to have been granted in fee simple and to have passed with the lands, excepting as to lands patented under the Free Grants and Homestead Act, and the Public Lands (since 4th of May, 1891) being lands sold for agricultural purposes or for other uses.

Provision is made for requiring nickel mines to be worked under a lease or license and on payment of certain license fees, to be remitted or reduced if the ore is refined in Canada, but this part of the Act has not yet been brought into operation.

Any person may explore for mines and minerals on any Crown land not staked out or occupied, and not withdrawn from sale by Order in Council, as being valuable for pine timber or other reason. Crown lands alleged to contain ores or minerals may be sold as mining lands, called mining claims, or may, when situated within a Mining Division, be staked out as mining claims under miner's license.

Locations containing not less than 40 acres, are sold as mining claims in fee simple, and within six miles of a railway, \$3.50 per acre; beyond six miles, \$3, if beyond twelve miles, \$2.50; if in unsurveyed land, \$2.50 and \$2, according to distance from railway. All locations must be located within six months of the date of sale.

mining locations revert to the Crown in default of the expenditure in actual mining operations of \$1 per acre during the first two years and of \$1 per acre in each year of the next five years, or of the equivalent in a shorter time.

Instead of granting mining lands in fee simple, the province will lease such lands for a term of ten years, and if at the end of the term all rents have been paid and working conditions performed the lessee will be entitled to a patent. The rental is \$1 per acre for the first year and fifteen cents to thirty cents per acre per annum (according to distance from the nearest railway and situation in townships or unsurveyed lands) for subsequent years.

Miners' licenses in parts of the province which may be set apart as mining divisions are granted for one year on payment of \$10, renewable at the end of the year on payment of a like fee. The holder of a license may stake out a claim of 15 chains square, 22½ acres, or 20 chains square, 40 acres, and he can hold it by expending \$150 per annum in actual mining operations thereon, reckoning grown men's labour at \$2 per day. Where the licensee desires to procure a patent or lease of a claim he may do so by completing the working conditions, for a period of four years on a claim of 20 chains square, or for three years on a claim 15 chains square, or the equivalent in a shorter time. But he is required to procure a survey of the land and to pay in the purchase money or first year's rental.

In unsurveyed lands of the Crown outside of mining divisions the holder of a prospector's license (fee \$10) may stake out two claims of 40 acres each and hold them for a period of two years by expending \$3 per acre in the first year and \$7 per acre in the second on development work, when the licensee may proceed in the usual way to acquire the property by survey and payment of the purchase price or the first year's rent.

The Legislature of Ontario created a Bureau of Mines in 1891. It has issued a series of valuable reports. The present director is Mr. Thos. W.

DOMINION.

COAL.

The Government have provided regulations (Order in Council 1902) for the disposal of coal lands the property of the Manitoba, the North-west Territories, and within a portion of British Columbia. These regulations provide that locations not exceeding 320 acres may be sold at the rate of \$10 per acre, if the coal is anthracite, in which case the price is \$20 per acre.

The surface rights of the land are not the property of the Crown the mineral mining rights thereunder may be reserved for the applicant to prospect thereon, upon payment of a fee of \$10 and upon obtaining permission from the owner of the surface rights to enter upon the land.

Settlers at a distance from coal mines worked by purchasers, may secure permits authorizing them to mine for domestic purposes, on payment of a royalty of 20 cents for anthracite and 15 cents for bituminous and 10 cents for lignite coal. The regulations provide that the location shall be marked on the ground, that the frontage shall not exceed three chains, and the length ten chains; that the applicant shall within thirty days after mark-

ing his location, file application with the agent, who is to issue a permit for a rental of \$5 an acre or fraction of an acre per annum.

In the Yukon Territory all applications for coal lands are to be made to the Crown timber and land agent, who is empowered to sell such lands at \$20 an acre, if the coal is anthracite, and \$10 for any other coal.

GOLD QUARTZ CLAIMS.

Persons of 18 years and over and joint stock companies holding a miner's certificate, may obtain entry for a mining location.

A free miner's certificate (non-transferable) is granted for one year, not exceeding five, on payment in advance of the prescribed fee for an individual is \$10, and to a joint stock company \$50 according to capital.

The holder of a free miner's certificate who has discovered a place, may locate a claim 1,500 feet by 1,500 feet, by marking it with legal posts, one at each end, on the line of the lode or vein, and one out the line between. Upon each post shall be marked the name of the claim, the name of the person locating and date, and the number of the claim lying to the right and left of line.

The claim shall be recorded with the Mining Recorder of the Territory within 15 days, if located within 10 miles of the office; one additional day allowed for every additional 10 miles or fraction. If a claim is more than 100 miles from a Recorder's office and situated where other claims are being located, five free miners may appoint a Free Miner's Recorder, but if the latter fails within three months to notify the nearest Government Mining Recorder of his appointment, the claims will not hold good for recording a claim is \$5.

At least \$100 per year must be expended on the claim, or paid to the Mining Recorder in lieu. When \$500 have been expended or paid to the locator, may upon having a survey made and upon complying with other requirements, purchase the land at \$1 per acre cash.

A location for mining iron and mica not exceeding 160 acres may be granted, but if therein other valuable mineral is discovered the right is limited to the area prescribed for other minerals, the remainder reverting to the Crown. The Minister of the Interior may also grant locations for copper mining in the Yukon Territory.

The patent for a mining location shall reserve to the Crown forever a royalty, not to exceed five per cent, may hereafter be imposed on the sales of the products of all mines therein, and the same royalty shall be collected on the sales which may be made prior to the issue of the patent. The royalty shall be collected in such manner as may be prescribed by the Minister of the Interior.

PLACER MINING IN THE YUKON TERRITORY.

Creek, gulch, river and hill claims shall not exceed 250 feet in width, measured on the base line or general direction of the creek or river, and shall not exceed 1,000 to 2,000 feet in length. All other placer claims shall be subject to the same regulations.

be marked by two legal posts, one at each end bearing notices. It may be obtained within ten days if the claim is within ten miles of the recorder's office. One extra day allowed for each additional ten miles.

Any person or company staking a claim, must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim 1,000 feet in length, and the party consists of two, 1,500 feet altogether, on the output of which a royalty shall be charged, the rest of the party ordinary claims.

Royalty at the rate of $2\frac{1}{2}$ per cent on the value of the gold obtained from the Yukon Territory to be paid to the Comptroller, for the purpose of estimating which, the gold shall be valued at \$15 an ounce. No miner shall receive a grant of more than one mining claim on the same river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners, may work their claims in common, by filing notice and paying fee of \$2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Assessment must be done on a claim each year to the value of at least \$200, and if no work payment may be made to the Mining Recorder each year for three years of \$200 and after that \$400 for each year.

It is to be noted that work has been done or fee paid must be obtained each year, or else the claim shall be deemed to be abandoned, and open to location and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the *Yukon Official Gazette*.

HYDRAULIC MINING, YUKON TERRITORY.

Any tract of land suitable for hydraulic mining, having a frontage of from one to five miles and a depth of one mile or more, may be leased for twenty years, if the ground has been prospected by the applicant or his agent; is not suitable for placer mining; and does not include within its boundaries any mining claims already granted. A rental of \$150 for each acre of frontage, and a royalty at the rate of $2\frac{1}{2}$ per cent on the value of the gold obtained from the Yukon Territory, are charged. Operations must be commenced within one year from the date of lease, and not less than \$5,000 expended annually. The lease excludes all base metals, quartz and other minerals, and provides for the withdrawal of unoperated land for agricultural or other purposes.

DREDGING IN THE YUKON TERRITORY.

Tracts of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The miner's right is confined to the submerged bed or bars in the river below the water mark, that boundary to be fixed by its position on the 1st day of January in the year of the date of the lease.

Manitoba, not included in estimated population until 1871.

British Columbia " " 1872.

Prince Edward Island " " 1874.

The Territories " " 1881.

*These estimates of population are based upon the percentage of growth shown by the decennial census as compared with its predecessor. The annual growth of Canada is worked out by logarithmical calculations, as is done in all countries where there is a lack of statistics of births and deaths and movement of population no other way is available. After the results of each census are known the estimates are revised in the light of the knowledge obtained. It is as successful a system as has been devised. For instance, the population of 1900 as estimated by this process was given at about one per cent more than it appeared when the census of 1901 afforded the means of rectifying the estimate.

ent times there have been two or three great fires in Canada, the which are seen in the statistics. In St. John, N.B., in 1877 a fire of 200 acres opened up by $9\frac{1}{2}$ miles of street. Over 1,600 houses destroyed and 13,000 persons rendered homeless. 615 places of business burned to the ground.

At Ottawa, April 26, 1900, a fire swept over a large part of Hull, crossed the river and destroyed many houses in the western part of Ottawa. It is estimated that in all 3,000 houses were burned and 15,000 persons made homeless. The insurance paid was in the neighbourhood of four millions of dollars. The loss of property was estimated at nine millions, and the distress of the people of the British Empire and the United States added to about one million dollars.

EDUCATION.

Under the British North America Act, 1867, the right to legislate on matters respecting education was placed in the hands of the governments of the several provinces, the rights and privileges of denominational and separate schools then existing being especially protected.

ONTARIO.

Subject to the approval of the Provincial Government, all regulations for the public and high schools are made by the Minister of Education. These schools are under the control of local boards of trustees, elected by the rate-payers, and are allowed to have none but certificated teachers. Education of children between the ages of 7 and 13 is compulsory for not less than 100 days in the year. Some of the noteworthy features in Ontario's System of Education are: uniform course of study for all schools; all public and High Schools in the hands of professionally trained teachers; provincial instead of local, control of examination of teachers; uniformity of text books and common matriculation for admission to all universities and learned professions. These give unity to the system which includes (a) Kindergarten, (b) Public or Separate schools, (c) High Schools or Collegiate Institutes, (d) the University.

The following table gives particulars respecting the public schools of Ontario in the years 1879 and 1901, Roman Catholic separate schools included.

STATISTICAL YEAR-BOOK

QUEBEC.

matters in the province of Quebec are under the control of the Minister of Public Instruction, assisted by a council of education, and divided into committees for the management of Roman Catholic and Protestant schools respectively. Compulsory school attendance is required from 5 to 16 years. The schools are maintained partly by local taxes and partly by Government grants and are individually controlled by local school boards.

The following table gives the number of educational institutions of all grades in the province :—

NOVA SCOTIA.

the Council of Public Instruction of Nova Scotia consists of the members of the Executive Council. There is also a Superintendent of Education. The local management of the public schools is in the hands of School Committees, chosen by the ratepayers of the section in rural sections and of School Commissioners in incorporated towns.

The following table of educational statistics explains itself:—

BRITISH COLUMBIA.

The educational system of British Columbia is free, undenominational and supported by the Government, except the schools in the cities Nanaimo, New Westminster, Vancouver and Victoria. (See foot notes the following pages.) There is a Superintendent of Education, acting as the Provincial Secretary, and each school is locally controlled by trustees elected by the ratepayers of each school district. The Lieutenant Governor in Council is empowered to create new school districts as they become necessary, provided that no school district shall contain less than fifty children of school age, viz., between 5 and 16 years of age.

The following table shows the number of schools, teachers and pupils

NORTH-WEST TERRITORIES.

The educational system of the North-west Territories is administered by a Department of Education, which is under the control of one of the members of the Executive Council, who is officially designated as the Commissioner of Education.

The law provides that no school district shall comprise an area of more than 25 square miles, nor shall it contain less than four resident heads of families, or a smaller school population than 12, i.e., children between the ages of 5 and 16.

No religious instruction is allowed in any public school before 3.30 o'clock in the afternoon, at which time such instruction as is permitted by the trustees may be given, parents having the privilege of withdrawing their children at that hour, if desired.

In 1902 there were 474 schools in the province, and 293 male teachers and 295 female teachers.

† of teachers' salaries. ‡ By amendment to School Act in 1891, city districts were to refund one-half of amount of teachers' salaries, and meet all other expenses with their schools. § By amendment to School Act in 1893, city districts are required to refund all expenses connected with the maintenance of the schools, and are allowed a grant of \$10 on the average actual daily attendance. They are also given the property tax. ¶ Includes expenditure on Normal school of \$5,548 and cost of educating and Dumb, \$3,208.

REFERENDUM ACT, 1902.

The Legislature of Manitoba having passed an Act respecting the prohibition of the sale of intoxicating liquors in the province, and the judicial committee of the Privy Council of England having decided that the Act was *intra vires* of the provincial authority, the Legislature by an Act styled "The Referendum Act, 1902," appointed the 2nd of April, 1902 as the day on which the electors should answer the question: "Are you in favour of bringing the Liquor Act into force on the 1st day of June, 1902."

The Referendum Act provided that the Liquor Act should be brought into force, (1) if 45 per cent. of the total number of persons entitled to vote gave affirmative answers to the question submitted, or (2) if at least 60 per cent. of the persons so entitled, actually voted, and 60 per cent. of these voted "yes," or (3) if 62½ per cent. of the actual voters answered "yes."

The official returns show the following results of the vote:—

Total affirmative answers to said question	15,607
Total negative answers to said question	22,464
Total number voting	38,071
Total number of persons entitled to vote	74,477

The Liquor Act, 1902 (Ontario), provided in effect for the prohibition of the sale by retail in the province of fermented spirituous and malt liquors. Boarding houses, clubs and societies were inhibited keeping liquors on their premises, and only limited quantities were to be kept by doctors and druggists, and by clergymen for sacramental purposes.

The Act further provided for a referendum to the voters, the question submitted being "shall the Act come into force?" It also provided that the Act should be put into operation if on the voting those in favour had a majority of the ballots cast, the number of ballots to be at least 212,723, figures which represented one half of the total vote in the general elections for the Legislature in 1898.

The voting took place on the 4th of December, 1902, and the result was that the total number of votes polled was 303,297, of which in favour, 199,749; against, 103,548. The votes in favour being 12,974 less than the stipulated number the Act was rejected. The supporters of prohibition had a majority of 96,201.

Widowed.....	250,146	4·19	73,837	2·69	151,181	5·77

The corresponding figures and percentages for the Census of 1891 are :

CONJUGAL STATE.	AGGREGATE.		MALES.		FEMALES.	
	Number.	Per Cent.	Number.	Per Cent.	Number.	Per Cent.
Single.....	3,053,392	63·18	1,601,541	65·09	1,451,851	61·20

Widowed.....	191,792	3·97	62,777	2·56	129,015	5·43

The figures for 1901 indicate that of the whole population of Canada (5,371,315, of whom 2,751,708 are males, and 2,619,607 are females) over 61 in every 100 were single, over 34 in 100 were married and over 4 in a hundred were widowed—the divorced men and women (men 337 and women 324) being together one in every 5,600 of the population. From the Census of 1891 it appears that over 63 in every 100 were single, 33 married, 4 widowed.

This comparison indicates that Canada has a larger proportion of married people now than it had in 1891, and also a larger proportion of widowed, and that adding the single and widowed together the difference is: 1891, 67·15 per cent.; 1901, 65·73, a difference of 1·42 per cent. in favour of 1901.

It will thus appear that the people of Canada are marrying and giving in marriage in larger numbers than they were at the time of the taking of the Census of 1891. At any rate it can fairly be stated that the marriage rate has not decreased.

The following are the statistics of divorce as given in the public res

*In British Columbia, in addition to the divorce, five judicial separations granted, one in 1892; one in 1893; one in 1899, and two in 1900, besides in the four applications (male) having been granted 'Decree Nisi.'

In Ontario, Quebec, Manitoba and the North-west Territories can only be obtained by legislation—an Act of the Parliament of Canada being necessary. The rules of the Senate touching divorce require production of such evidence in support of the application for relief as is deemed sufficient in a court of law; in other respects the matter is governed by an ordinary private Act of Parliament.

INDIANS.

According to the Census of 1901 the Indians of the Dominion numbered 93,319, of which 25,593 were in British Columbia, 19,696 in Ontario, 35,758 in Manitoba and the Territories, and 12,272 in the other Provinces. The difference between the Census returns and the Indian Department Statement is caused probably by the inclusion in the latter of some half breeds, not included in the Census of 1901.

* Season of 1901.

The quantity of land sold for the benefit of the Indians during the year 1902 was 103,461 acres, which realized \$160,520. The quantity of surrendered lands now held by the Government for sale is about 386,376 acres.

The amount at the credit of the Indian fund, which consists of moneys accrued from annuities, secured to the Indians under treaty, and from sales of land, timber, stones, &c., surrendered by them, was, on June 30, 1902, \$4,045,946, the expenditure from which, charged principally to interest, amounted to \$276,749. The expenditure from parliamentary appropriations was \$1,057,130, making a total of \$1,333,879.

The following is a statement of the expenditure from the parliamentary grant by provinces, fiscal year ended June 30, 1902 :—

According to the Census returns of 1891 for Canada, the birth rate in British Columbia was 23·16 per thousand of the population, and the death rate was 13·94 per thousand. In Manitoba the birth rate was 32·51 per thousand, and the death rate 10·36 per thousand. In New Brunswick the birth rate was 27·70 per thousand, and the death rate 13·36 per thousand. In Nova Scotia the birth rate was 25·41 per thousand, and the death rate 14·57 per thousand. In Ontario the birth rate was 24·50 per thousand, and the death rate was 11·30 per thousand. In Quebec the birth rate was 36·86 per thousand, and the death rate 18·91 per thousand. In Prince Edward Island the birth rate was 24·45 per thousand, and the death rate 12·26 per thousand. In the North-west Territories the birth rate was 12·32 per thousand, and the death rate 7·32.

Manitoba is the banner province, having the second largest birth rate and the second lowest death rate, the result being that the prairie province has the largest excess of births over deaths.

The following table gives the births, deaths and marriages in each of the respective countries :—

CRIMINAL STATISTICS.

The judicial system of Canada has been described on pages 31 and 32.

The Act authorizing the collection and compilation of Criminal Statistics came into operation in 1876. The returns are yearly becoming more valuable, greater care being exercised in the collection. The whole system has been reviewed since the year 1893, with the result of adding to the returns the criminals dealt with by the North-west Mounted Police.

The returns are compiled under two headings: 'Indictable Offences and Summary Convictions.' The first includes all felonies and misdemeanours tried by the competent courts and juries, whether following the general procedure in accordance with Chap. 174, R.S.C., or the summary procedure applicable to certain cases as provided by the Acts relating to 'Summary Trials,' 'Summary Trials by Consent' and 'Juvenile Offenders' 175, 176 and 177, R.S.C. The second includes all minor offences tried by justices of the peace, police magistrates or stipendiary magistrates Chap. 178, R.S.C.

the various indictable offences which comprise the more serious crimes, divided into six classes, as follow :—

- Class I.**—Offences against the person.
II.—Offences against property, with violence.
III.—Offences against property, without violence.
IV.—Malicious offences against property.
V.—Forgery and offences against the currency.
VI.—Other offences not included in the foregoing classes.

and the following list gives the principal crimes and offences that are added in each class :—

CLASS I.—OFFENCES AGAINST THE PERSON.

Murder and attempt to murder.
Manslaughter.
Shooting, stabbing, wounding, &c.
Rape and other offences against females.
Unnatural offences.
Bigamy.

The number of cases tried by Stipendiary Magistrates and Inspectors of the North-west Mounted Police since 1892 is not given separately, but is included in the total returns of the Territories.

It must be borne in mind that the number of convictions does not represent a like number of individual criminals, because any person convicted more than once during the year, whether for the same or a different offence, is counted as a separate person for each conviction; as it is well known, the same persons are convicted several times a year for such offences as drunkenness, vagrancy and similar offences.

ices the totals given above, not including the North-west
lice returns, excepting for 1893 to 1902, are distributed as
e period of 1891-1902 :—

BEET SUGAR IN CANADA.

Many years ago a quantity of sugar beet seed was procured by the the Department of Agriculture of Canada for distribution among the farmers, but only a small portion was taken.

In 1867 Mr. Cuisset of Quebec wrote a treatise on beet root cultivation of sugar fabrication. In 1872 the Department sent Mr. Edward Barnard to Europe to prosecute inquiries about sugar beets and beet sugar.

Mr. Wm. Skaffé, Mr. Robert Lauder, the Count des Etang, Dr. Wm. Saunders, C. C. James and others have written on the subject in connection with efforts to develop the industry in Canada.

The Legislature of the province of Quebec passed an Act in 1875 authorizing the Lieut. Governor-in-Council to grant annually the sum of \$5,000 for five years for the purpose of securing the establishment of a beet sugar factory.

In 1876 the Quebec Legislature passed an Act increasing the offer to \$7,000 a year for 10 years.

In 1878 a company named *La Compagnie de Sucre de Betterave de la province de Quebec* obtained an Act of Incorporation with a subscribed capital of \$500,000. Nothing more was done and in 1880 a new Act was passed incorporating a company and making Farnham the head-quarters. This company bound itself to manufacture 100 tons of beets a day provided the Government of the Province would assign to it the subsidy provided by the Act of 1876.

In 1881 another company was incorporated under the name of *L'union Franco-Canadienné* with a capital of ten million francs; general office in Paris and local office in Montreal with factory in county of Berthier.

By an Act of 1882 (45 Victoria, Chap. 23) the Legislature of Quebec agreed to grant to the Farnham Company \$7,000 a year for 10 years, and to the farmers a sum of \$2,000 to be distributed at the rate of 75 cents per ton of beets delivered at the factory.

A third company '*La Compagnie de Sucre de Betterave Pionier*' was subsequently incorporated with its centre of operations in Coaticook. This company obtained a subvention of \$3,500 in 1882, but does not appear to have done anything practical.

The subsidy of \$70,000 granted to the Farnham factory was paid by annual sums of \$7,000. The Government also paid \$860 for insurance premiums of the Farnham factory.

The Federal Government came to the assistance of the beet sugar industry and by chap. 31 Acts of 1891 the Parliament of Canada offered a bonus of \$1.00 per hundred pounds and in addition thereto $3\frac{1}{2}$ cents per 100 lbs. for each degree or fraction over 70 degrees shown by the polariscope, to producers in Canada of raw beet sugar, for a term of years ending on June 30, 1893. By a subsequent Act the time was extended to June 30,

1895, and in the session of 1895 the bounty was fixed at 75 cents per 100 lbs. and an additional one cent per 100 lbs. for each degree over 70 degrees polariscope test, the bounty, however, never to exceed \$1.00 per 100 lbs. the time was extended to June 30, 1897.

In all, the province of Quebec paid out \$122,419 and the Dominion \$93,283 making a total of \$215,702.

The enterprises, however, failed of success.

The Farnham Company closed in 1893 and the Berthier Company after passing through different hands was closed in 1896 and was in 1897 turned into a gin distillery.

No further assistance was given by either the Dominion or the Provincial Governments till the Legislature of Ontario during the session of 1901 passed an Act for the purpose of encouraging the growth of sugar beets and the establishment of factories within the province for the manufacture of refined sugar from beets.

The sum appropriated for the purpose was \$225,000 payable to the extent of \$75,000 a year at the rate of one-half cent per pound for the product of first and second years operations and $\frac{1}{4}$ of a cent per pound for the third year.

The result of this governmental stimulation was the formation of several companies. These began operation in 1902. The results of the first year's efforts, with other data follow:—

	Ontario Sugar Co.	Wallaceburg Sugar Co.	Dresden Sugar Co.	Warton Sugar Co.
Capacity, tons per day..	600	600	600	350
Cost	\$510,000	575,000	525,000	400,000
Days worked	90	45	60	—
Beets sliced, tons	32,000	18,000	20,000	12,000
Sugar produced, lbs.	6,500,000	3,500,000	4,000,000	1,500,000

making in all 15,500,000 pounds produced.

About 160 farmers provided the beets required for these companies. The average sugar content for the total quantity of beets supplied was 15.05 per cent and the average receipts per acre amounted to \$51.36.

The Federal Parliament under chap. 22 Acts of 1901 assisted the industry by admitting free of customs duty, structural iron and machinery used in the manufacture of sugar from beet root. Under this Act, during the year it was in force, the value of the machinery imported was \$655,781. The government proposed in the session of 1903 to admit such machinery free of duty for a year.
